The following Degrees and Licences in Medicine and Surgery are granted by the University of Dublin, and are entitled to be registered under the Medical Act:—(1.) Bachelor in Medicine: (2.) Doctor in Medicine; (3.) Bachelor in Surgery; (4.) Master in Surgery; (5.) Licentiate in Medicine; (6.) Licentiate in Surgery. The qualifications requisite for these Licences and Degrees are the following:—

I.—BACHELOR IN MEDICINE.

Qualification in Arts.—The Bachelor in Medicine must be a Bachelor in Arts of Dublin, Oxford, or Cambridge.

Qualification in Medicine.—Four years, at least, spent in the study of Medicine, including the following Courses of Lectures:—1. Anatomy; 2. Practical Anatomy; 3. Surgery; 4. Chemistry: 5. Materia Medica and Pharmacy; 6. Institutes of Medicine; 7. Practice of Medicine; 8. Midwifery; 9. Botany; 10. Laboratory Chemistry; 11. Medical Jurisprudence; 12. Three years' attendance on the Clinical Instruction of Sir Patrick Dun's Hospital, or other Medico-Chirurgical Hospital approved by the Board of Trinity College. 13. Certificate of personal attendance on cases of fever, specifying names and dates. 14. Six months' Practical Midwifery.

The Candidates for the Degree of M.B., must have qualified by adequate answering at two Examinations, viz.:—the Previous Medical Examination, and the Bachelor of Medicine Examination.

The Certificates of Lecturers in the following Schools are recognised by the University of Dublin:—The School of Physic, Trinity College: the School of the College of Surgeons; the Richmond Hospital, or Carmichael School: the Steevens's Hospital School; the Ledwich, or Peter-street School; the School of the Catholic University.

The following Medico-Chirurgical Hospitals are recognised by the University of Dublin:—Sir P. Dun's Hospital; Hospitals of the House of Industry (Richmond, Whitworth, and Hardwicke); Mercer's Hospital; The City of Dublin Hospital; St. Vincent's Hospital; The Meath Hospital and County of Dublin Infirmary; Jervis-street Infirmary; Dr. Steevens's Hospital; the Adelaide Hospital; the Mater Misericordiæ Hospital.

II.—DOCTOR IN MEDICINE.

A Doctor in Medicine must be a Bachelor in Medicine of three years' standing, or have been qualified to take the Degree of Bachelor in Medicine for three years. He must also read a Thesis publicly before the Regius Professor of Physic, or must undergo an Examination before the Regius Professor of Physic, according to Regulations to be approved by the Provost and Senior Fellows.

III.—BACHELOR IN SURGERY.

Qualification in Arts.—The Bachelor in Surgery must be a Bachelor of Arts of Dublin, Oxford, or Cambridge.

Qualification in Surgery.—Four years' study of Surgery, and attendance on the following Courses:—1. Anatomy, One Course. 2. Theory and Practice of Surgery, Two Courses. 3. Demonstrations and Dissections, Three Courses, each of six months. 4. Practice of Medicine, One Course. 5. Chemistry, One Course. 6. Materia Medica, One Course. 7. Midwifery, One Course. 8. Laboratory Chemistry, One Course. 9. Botany, One Course. 10. Medical Jurisprudence, One Course. 11. Attendance on the Clinical Instruction of three years in Sir Patrick Dun's or other recognised Medico-Chirurgical Hospital. 12. Six months' Practical Midwifery. 13. Three months' Ophthalmic Surgery.

Having completed the foregoing Courses, the Candidate for this Degree must pass a public Examination, partly written and partly oral.

IV.—MASTER IN SURGERY.

A Master in Surgery must be a Bachelor in Surgery of three years' standing, or have been qualified to take the degree of Bachelor in Surgery for three years; and must read a Thesis publicly before the Regius Professor of Surgery, or undergo an examination before the Regius Professor, according to regulations to be approved by the Provost and Senior Fellows.

V.—LICENTIATE IN MEDICINE.

Qualification in Arts.—The Licentiate in Medicine must have kept two complete years in Arts.

Qualification in Medicine.—Same as the qualification for the Degree of Bachelor in Medicine—viz., attendance on the prescribed Courses of instruction, and the passing of a similar public Examination.

VI.—LICENTIATE IN SURGERY.

Qualification in Arts.—The Licentiate in Surgery must have kept two complete years in Arts.

Qualification in Surgery.—Same as for the Degree of Bachelor of Surgery—viz., attendance on the prescribed Courses of instruction, and the passing of a similar public Examination.

The Licences in Medicine and Surgery of the University of Dublin are recognised by the Boards of Examiners of the Navy, Army, and East Indian Army, and entitle the holder to register under the provisions of the Medical Act of 1858.

PRIVILEGES OF MATRICULATED MEDICAL STUDENTS.

Medical Students, being Junior or Senior Sophisters on the College Books, are exempted from the Classics of the Junior Sophister year, and from one of the three optional Courses (Mathematical Physics, Experimental Physics, or Classics) of the Senior Sophister year. To obtain this privilege it is necessary that the Student be matriculated in Medicine, and that the proper certificates of his attendance on Medical Lectures are submitted to the Senior Lecturer.

Students in Arts who are also matriculated in Medicine, having their names on the College Books, will be permitted to attend one Course free of expense, with the Professor of Botany, and are entitled to attend the Lectures of the Professor of Chemistry and Professor of Surgery on payment of half fees.

By the Act 40 Geo. III., c. 84, the several Lecturers and Professors of the School of Physic are bound during each Medical Session to return to the Senior Lecturer the names of such Students as have attended their Lectures.

The total expense of obtaining the degrees of Bachelor in Arts, Bachelor in Medicine, and Bachelor in Surgery is two hundred guineas.

The Candidates for the Medical and Surgical Licences of the University of Dublin are subject to the College discipline during their Course.

Each Candidate for the Degree of Doctor in Medicine or Master in Surgery, or for the Diploma in Midwifery, is required—1. To have passed in one of the Colleges of the Queen's University the Entrance Examination in Arts, and to have been admitted a Matriculated student of the University. 2. To have attended, in one of the Queen's Colleges, lectures on one Modern Continental Language for six months, and Lectures on Natural Philosophy for six months. 3. To have also attended, in some one of the Queen's Colleges, at least two of the courses of Lectures marked with an asterisk in the following lists. For the remainder of the courses, authenticated certificates will be received from the Professors or Lecturers in Universities, Colleges, or Schools, recognised by the Senate of the Queen's University in Ireland. 4. To pass Three University Examinations—the First University Examination, the Second University Examination, and the Degree Examination.

The Curriculum extends over at least four years, and is divided into Periods of at least two years each. Candidates are recommended to pass the Matriculation Examination, prior to entering on the Second Period. It is recommended that the First Period shall comprise attendance on the following courses of Medical Lectures:—*Chemistry, *Botany, with Herborizations for practical study, and Zoology, *Anatomy and Physiology, *Practical Anatomy,* Materia Medica and Pharmacy. And that the Second Period shall comprise attendance on the following courses of Medical Lectures:—Anatomy and Physiology, Practical Anatomy, *Theory and Practice of Surgery, *Midwifery, *Theory and Practice of Medicine, *Medical Jurisprudence.

In addition to the above courses of lectures, Candidates must attend, during either the First or Second Period—*A Modern Continental Language* (in one of the Colleges of the University). *Experimental Physics* (in one of the Colleges of the University). Also, during the First Period—*Practical Chemistry* (in a recognised Laboratory). *Medico-Chirurgical Hospital* (recognised by the Senate), containing at least sixty beds; together with the Clinical lectures therein delivered, at least two each week—a Winter Session of six months. And during the Second Period—*Practical Midwifery.* A certificate of having attended at a recognised Midwifery Hospital, with the Clinical lecturest herein delivered, for a period of three months; or of having attended a Midwifery Dispensary for the same period;

or of having attended ten cases of Labour, under the superintendence of the Medical Officer of any Hospital or Dispensary where cases of Labour are treated. *Medico-Chirurgical Hospital* (recognised by the Senate) containing at least sixty beds; together with the Clinical lectures therein delivered —eighteen months; including either three Winter Sessions of six months each, or two Winter Sessions of six months each, and two Summer Sessions of three months each.

English Composition forms a part of all University Examinations.

Candidates for Honors must satisfy the Examiners at the Pass Examination before they are admitted to compete for Honors; and their answering at the Pass Examination is taken into account in determining the class of Honors to be awarded to them.

Medical Examinations are held in June and in September and October. The June Examinations are Pass Examinations: those held in September include both Honor and Pass Examinations. Each Candidate for Examination in June must forward to the Secretary, on or before the first of June, notice of his intention to offer himself as a Candidate, along with his Certificates; and each Candidate for Examination in September must forward similar notice, along with his Certificates, on or before the first of September.

The First University Examination may be passed either in June or September. It comprises the following subjects:—A Modern Language, Experimental Physics, Zoology and Botany. It is competent for Students to present themselves for examination in this group of subjects at any time after the close of the first Winter Session. Before being admitted to Examination, each Candidate must produce satisfactory evidence of having completed the prescribed courses of study in the subjects of Examination.

The Second University Examination may be passed either in June or September. It comprises the following subjects:—Anatomy, Physiology, Materia Medica, and Chemistry; to which are added Zoology and Botany in the examination of Candidates who have not previously passed the First University Examination. Candidates who are in this position may either undergo their Examination in Modern Languages and Experimental Physics as a part of the Second University Examination, or may present themselves for examination in these subjects at any time between the Second University Examination and the Degree Examination. It is competent for students to present themselves for the Second University Examination at the termination of the First Period of the Curriculum, or at any subsequent period; but no Student is allowed to postpone his Second University Examination until the time when he presents himself for his Degree Examination.

Before being admitted to Examination, each Candidate must produce satisfactory evidence of having completed the course recommended for study during the First Period of the Curriculum extending over at least two Winter Sessions.

Examinations for the Degrees of M.D., M.Ch., and the Diploma in Midwifery, are held in June and September.

The Fee for each Degree is Five Pounds, and the Fee for the Diploma in Midwifery is Two Pounds. Each Fee must be lodged with the Secretary before the corresponding Examination begins.

Each Candidate must be recommended by the President of his College, and produce certificates to the following effect:—1. A certificate from the Secretary of the Queen's University, that he has passed the previous Examinations, unless the Senate has passed a Grace permitting the Candidate to present himself for the Examinations simultaneously. 2. From the Council of his College, that he has passed a full Examination in the subjects of study prescribed for the entrance course of the Faculty of Arts, and has been admitted a Matriculated student in the Faculty of Medicine. 3. That he has attended in the Colleges of the Queen's University two of the courses marked with an asterisk, and also lectures on one Modern Language, and lectures on Experimental Physics 4. Certificates that he has completed all other prescribed Courses.

Degrees in Surgery and Diplomas in Midwifery are conferred only on Candidates who hold the Degree of Doctor in Medicine of the University.

The Examination for the Degree of M.D. comprises the subjects recommended for study during the Second Period of Medical Education.

The Examination for the Degree of M.Ch. comprises an examination in the Theory and Practice of Surgery, including Operative and Clinical Surgery.

The Examination for the Diploma in Midwifery comprises an examination in the Theory and Practice of Midwifery, and the use of obstetrical instruments and appliances.

REGULATIONS AS TO THE RECEPTION OF CERTIFICATES FROM MEDICAL LECTURERS AND HOSPITALS.

Colleges or Schools seeking recognition from the Queen's University, are required to send in the names and qualifications of the several Lecturers, with such particulars as the Senate may require. And in the event of the Lecturers being changed a fresh recognition must be sought.

Jurisp.*, Dr. R. Travers. *Exam. in Midw.:* Drs. E. B. Sinclair and Fleetwood Churchill, jun. *Representative Gen. Med. Counc.*, Dr. Aquilla Smith. *Libr.*, Mr. H. J. Fennell.

THE COLLEGE OF PHYSICIANS IN DUBLIN was founded in 1660 by Dr. JOHN STEARNE, Fellow and Professor of Physic in Trinity College, Dublin; was incorporated by Royal Charter of KING CHARLES II. A.D. 1667; and re-incorporated by their Majesties KING WILLIAM and QUEEN MARY, A.D. 1692, under the title of "THE KING AND QUEEN'S COLLEGE OF PHYSICIANS IN IRELAND."

REGULATIONS RELATIVE TO THE FELLOWSHIP.

Licentiates in Medicine of the College of five years' standing are eligible for election to the Fellowship, except the Candidate holds a degree in Arts of some University in the United Kingdom, in which case the interval shall be three years; or shall have been a Registered Practitioner for seven years, in which case the term of Licentiateship is reduced to one year. The Candidate must be proposed and seconded at the January or July meetings of the College. Elections for the Fellowship are held twice a year, viz., on the first Friday in April and on St. Luke's Day.

The fee for the Fellowship is 30*l.* to Candidates who hold a degree in Arts in a University of Gt. Britain or Ireland, and to all other Candidates the fee is 50*l.* In addition to the fee to the College, every Candidate must pay the stamp-duty of 25*l.*

REGULATIONS RELATIVE TO THE LICENCE IN MEDICINE.

Examinations for the Licence in Medicine are statedly held on the second Tuesday and following day in each month (except August and September).

The name of every Candidate, together with his Schedule* and the documents hereafter mentioned, must first be submitted to the College at one of its Meetings. These are held regularly on the first Friday in each month (except August and September), and no name can be received later than the Monday previous to such Meeting. If permission to be examined is granted, the Candidate may present himself at the next Examination, or at a subsequent one: in the latter case, however, he must intimate his intention four clear days before the Examination.

A Candidate who has not, previous to entering his name, obtained any of the Medical or Surgical Qualifications recognised by the College must produce—1. Evidence of having been engaged in the Study of Medicine for four years. 2. A Certificate of having passed the Preliminary Examination of one of the recognised Licensing Corporations before the termination of the second year of medical study. 3. Certificates of having studied at a school or schools recognised by the College the following subjects, viz.:—Practical Anatomy; Anatomy and Physiology, or Institutes of Medicine; Botany; Chemistry; Practical Chemistry; Materia Medica; Practice of Medicine and Pathology; Surgery; Midwifery; Medical Jurisprudence. 4. Certificates of having attended a Medico-Chirurgical Hospital in which regular Courses of Clinical Lectures are delivered, together with Clinical Instruction, for twenty-seven months; or such Hospital for eighteen months, with nine months' attendance on a Medical Hospital, and similar courses of Clinical Lectures and Clinical Instruction; the attendance in each case being for *not more than nine months in any year*—namely, for six winter and three summer months—and the attendance on a Medico-Chirurgical Hospital and Medical Hospital not being taken out in the same year. 5. A certificate of having attended Practical Midwifery for six months at a recognised Lying-in Hospital, or evidence satisfactory to the College in each individual case of having attended Practical Midwifery. 6. Certificates of character from two registered Physicians or Surgeons.

A Candidate who has already obtained a Medical or Surgical Qualification recognised by the College, is required to fill up a Schedule which will be supplied on application, and to lodge it in the same manner as a Candidate not previously qualified; but the only documents he is required to produce are his Diploma or Certificate of Registration, and the Certificate of Practical Midwifery, and Testimonials as to character.

EXAMINATION FOR THE LICENCE IN MEDICINE.

The Examination consists of two parts; the subjects of the First Part or previous Examination are—Anatomy; Physiology; Botany; Chemistry. The subjects of the Second Part, or Final Examination, are — Materia Medica; Practice of Medicine; Medical Jurisprudence; Midwifery. The Examination is conducted, first, clinically; secondly, by printed questions, to be answered in writing; and, thirdly, *viva voce*.

Candidates for the Second or Final Examination are examined in the Practice of Medicine at the bedside in one of the Dublin Hospitals. The name of the Hospital selected will not be declared to the Candidates until half an hour previous to the time of examination.

Candidates qualified as follows are required to undergo the *second part* of the professional Examination only, viz.:—1. Graduates in Medicine of a University in the United Kingdom, or of any foreign University approved by the College. 2. Fellows, Members, or Licentiates of the Royal Colleges of Physicians of London or Edinburgh, who have been admitted upon examination.

* Blank Schedules are to be obtained on application at the College, or by letter, addressed to the Registrar, College Hall, Kildare-street. It is particularly requested that Candidates applying by letter will state whether they already possess any qualification, as the form of Schedule for those who have, differs from that required to be filled up by those who have not, obtained any Diploma.

3. Graduates or Licentiates in Surgery. 4. Candidates who, having completed the Curriculum as required by the Regulations, have passed the Previous Examination of any of the Licensing Corporations in the United Kingdom.

Candidates who are Physicians or Surgeons of five years' standing are further exempted from the clinical and written portions of the Final Examination.

Before the Licence in Medicine is conferred on a successful candidate he is required to make the following declaration.

DECLARATION REQUIRED OF CANDIDATES.

"I do hereby solemnly and sincerely promise that I will observe the Statutes and By-laws of this College, and to my power endeavour that the honour of the College be preserved entire; and in all things that belong to the honour or profit thereof, I shall be ready to give my advice and assistance.

"I hereby authorize the President and Fellows of the King and Queen's College of Physicians in Ireland to erase my name from the list of Licentiates, and I consent to surrender the Diploma received from the College, if I shall, after having obtained the licence of said College, keep open shop for the sale of medicines.

"I engage not to endeavour to obtain practice, or to attract public notice, by any unworthy means: I also engage that I will neither permit nor sanction the use of my name by any other person for such purposes, nor in connexion with any secret remedy; and in case of any doubt relative to the true meaning or application of this engagement, I promise to submit to the judgment of the College.

"And I solemnly and sincerely declare, that should I violate any of the conditions specified in this declaration, so long as I shall be either a Licentiate or Fellow of the College, I thereby render myself liable, and shall submit, to censure of the College, or to expulsion and surrendering of the Diploma, whichever the President and Fellows of the College shall think proper to inflict."

REGULATIONS RELATIVE TO THE DIPLOMA IN MIDWIFERY.

Examinations for the Diploma in Midwifery are held every month (except August and September), on the day after that on which the Stated Examinations for the Licence in Medicine are held.

A Candidate for the Diploma in Midwifery, who is already a Licentiate of the College, is at liberty to present himself at any of the Examinations, provided he intimate his intention a week previously.

Candidates for the Licence in Midwifery, who are not Licentiates of the College, are required to fill up a Schedule, and apply for permission in the same way as Candidates for the Licence in Medicine, and will be admitted to Examination on the following qualifications:—The Degree or Licence in Medicine or Surgery from any University or College of Physicians or Surgeons in the United Kingdom, together with certificates of having attended a six-months' course of lectures on Midwifery, a certificate of having attended at least thirty cases of Labour during six months at a recognised Lying-in Hospital, or evidence satisfactory to the College of having attended Practical Midwifery, and certificates of character from two registered practitioners. A declaration similar to that made by the Candidate for the Licence in Medicine is also required from the Candidate for the Licence in Midwifery.

FEES.

Fee for the Licence in Medicine, 15*l.* 15s. Fee for the Diploma in Midwifery, 3*l.* 3s. Fee for Licence in Medicine, and Diploma in Midwifery, if taken out within an interval of a month, 18*l.*

All Fees should be lodged to the credit of the King and Queen's College of Physicians, in the Royal Bank, Foster-place, Dublin, and the receipt given by the Bank deposited at the College a week before the day of Examination. Candidates at a distance may forward the Fee to the Registrar by crossed cheque, payable to the Treasurer of the College.

The Admission Fee, with the exception of 3*l.* 3s. deducted to meet the expense of the Examination, may be returned to any Candidate who may be rejected for the Licence in Medicine; and the Admission Fee, with the exception of 1*l.* 1s. deducted to meet the expense of the Examination, may be returned to any Candidate for the Licence in Midwifery who may be rejected; and in the case of a rejected Candidate afterwards presenting himself for Examination in Medicine or Midwifery within twelve months, the sum previously deducted of 3*l.* 3s. in regard to the Examination in Medicine, or of 1*l.* 1s. in regard to the Examination in Midwifery, will be allowed in the Fee paid for such second Examination.

REGULATIONS FOR FEMALE CANDIDATES FOR A LICENCE TO PRACTISE AS MIDWIVES AND NURSE-TENDERS.

Qualifications.—Age not less than twenty-one years. Certificates of Character.

Preliminary Examination.—Reading, writing, and arithmetic.

Course of Instruction.—Six months' attendance on Systematic Lectures on Midwifery, and not less than six months' attendance on Bedside Instruction in a Lying-in Hospital, or Maternity, recognised by the College.

Subjects for the Examination.—Midwifery (not including Operations), and Nurse-tending. Examination fee, 1*l.* 1s.

Registration of Pupils.—Every person requiring to be registered as a pupil on the College Books shall, if the Council think fit, be so registered, if he shall have laid before the Council a receipt showing that he has lodged to the credit of the President, and for the use of the College, in the Bank of Ireland, a registry fee of five guineas.

Qualifications of Candidates for Letters Testimonial.—Candidates for the Letters Testimonial of the College may present themselves either at a special or at a stated examination, as follows:—

Special Examinations.—Every registered pupil shall be admitted, upon payment of a special fee of Five Guineas, to a special examination for Letters Testimonial if he shall have laid before the Council the following documents:—(*a*). A receipt showing that he has lodged, in addition to his registration and special fees, a sum of twenty guineas in the Bank of Ireland, to the credit of the President, and for the use of the College. (*b*) A Certificate that he has passed a Prelimary Examination, conducted by a Board recognised by the General Medical Council, into the curriculum of which the Greek language enters as a compulsory subject. (*c*) A Certificate showing that he has been engaged in the study of his profession for not less than four years. (*d*) Certificates of attendance during three years on an Hospital recognised by the Council, where Clinical instruction is given. (*e*) Certificates of attendance on three courses of Lectures on Anatomy and Physiology, three courses of lectures on the Theory and Practice of Surgery, and of the performance of three courses of Dissections, accompanied by demonstrations; also Certificates of attendance on two courses of lectures on Chemistry, or one course of lectures on General, and one on Practical Chemistry, one course of lectures on Materia Medica, one course of lectures on the Practice of Medicine, one course of lectures on Midwifery, one course of lectures on Medical Jurisprudence, and one course of lectures on Botany.

N.B.—The subjects for examination, and the mode of carrying these out, for a special Examination, will be the same as those hereinafter laid down for the Stated Examinations, and any rejected Candidate will only be entitled to receive back fifteen guineas of the fees lodged by him.

Stated Examinations.—1st. Stated Examinations shall be held in the months of April, July, and November, commencing on dates of which due notice shall be given beforehand by the Council of the College, and to which Candidates cannot be admitted unless they be registered pupils, and at which they shall be divided into two Classes—Junior and Senior. 2nd. The Junior Class shall produce Certificates of having passed a preliminary Examination conducted by a board recognised by the General Medical Council, into the curriculum of which the Greek language enters as a compulsory subject; and of having attended three courses of Lectures on Anatomy and Physiology, three courses of Lectures on Practical Anatomy, with dissections; two courses of Lectures on Chemistry, one course of Lectures on Materia Medica, one course of Lectures on Botany, and one course of Lectures on Forensic Medicine. 3rd. This Class shall be examined in Anatomy, Histology, Physiology, Materia Medica, and Chemistry. 4th. The Fee for this examination shall be five guineas; in addition to the Registration fee of five guineas: not to be returned in case of rejection, but to be allowed the Candidate in case he presents himself a second time for examination. 5th. The Senior Class shall produce certificates of having attended three courses of Lectures on the Theory and Practice of Surgery, one course of Lectures on the Practice of Medicine, and one course of Lectures on Midwifery; also certificates of attendance on a recognised Hospital for three Winter and three Summer Sessions. 6th. This Class shall be examined in Surgery, Operative Surgery and Surgical Appliances, Practice of Medicine, Medical Jurisprudence and Prescriptions. 8th. The fee for the Senior Class Examination shall be fifteen guineas; returnable to the candidate in case of rejection. 9th. Both of these Examinations shall be conducted partly by Written and partly by Oral Questions. 10th. In addition to the foregoing fees, a fee of one guinea is to be paid to the Registrar, on handing each Licentiate his Diploma. 11th. Every Candidate rejected at any of the stated Examinations, on applying for re-examination, shall be required to pay to the College, in addition to the regular fees, the sum of two guineas to re-imburse the College the necessary expense of his re-examination.

Qualifications of Candidates for the Fellowship. — Every registered Pupil or Licentiate shall be admitted to examination for the Fellowship, if he shall have laid before the Council the following documents:—(*a*) A receipt, showing that he has lodged in the Bank of Ireland, for the use of the College, if he be a Licentiate, the sum of twenty guineas, or thirty-five in case he be only a Registered Pupil; provided in either case he intends to reside beyond ten miles from Dublin. Should the

candidate intend to reside in Dublin, or within ten miles thereof, he shall lodge, if he be a Licentiate, thirty guineas; or if he be only a Registered Pupil, forty-five guineas. Fellows entering on the country list, who may subsequently settle as Practitioners in Dublin, or within ten miles thereof, shall pay ten guineas to the College. (*b*) A certificate that he is twenty-five years of age. (*c*) A certificate that he is a Bachelor of Arts of some University, or that he has been examined in such manner as the Council may, from time to time direct, with a view to ascertain that he has obtained a liberal preliminary education. (*d*) A certificate of general good conduct during his professional education; to be signed by two or more Fellows of the College. (*e*) Certificates of attendance on the several courses of lectures required to be attended by candidates for Letters Testimonial, together with one course of lectures on Comparative Anatomy, and one course of lectures on Natural Philosophy. (*f*) A thesis on some Medical subject; or, Clinical Reports, with observations of six or more Medical or Surgical cases taken by himself. (*g*) Candidates of the required age, who shall have taken the degree of Bachelor of Arts in a British or Irish University, and have complied with the foregoing regulations in other respects, will be admitted to examination at the end of five years of professional study, of which three years must have been passed in one or more of the recognised Schools or Hospitals. (*h*) Candidates of the required age who have not taken the degree of Bachelor of Arts in a British or Irish University, must, in addition to the foregoing, produce Certificates that they have been engaged in the acquisition of professional knowledge for a period of not less than six years, during three of which they must have studied in one or more of the Schools and Hospitals recognised by the Council. They may have studied for the other three years in any School or Schools of the United Kingdom which shall be approved by the Council, or in any foreign School of repute. It is also required that the candidate shall have had opportunities of practical instruction, as House-Surgeons or Dressers, in a recognised Hospital. (*i*) Licentiates of the College, who may not be able to show that they have followed the course of study specified in the preceding regulations, may, at the expiration of ten years from the date of their diploma, be admitted to the examination required for the Fellowship, provided they produce such evidence as shall be satisfactory to the Council that they have conducted themselves honourably in the practice of their profession.

Qualifications of Candidates for the Diploma in Midwifery.—Any Fellow or Licentiate of the College shall be admitted to an examination for the Diploma in Midwifery upon laying before the Council the following documents:—(*a*) A certificate, showing that he has attended one course of lectures on Midwifery and Diseases of Women and Children, delivered by a Professor or Lecturer in some School of Medicine or Surgery recognised by the Council. (*b*) A certificate, showing that he has attended during a period of six months the practice of a Lying-in Hospital recognised by the Council; or the practice of a Dispensary for Lying-in Women and Children, recognised by the Council, and devoted to this branch of Surgery alone (*c*) A certificate, showing that he has conducted thirty labour cases at least.

Fees to be paid by Candidates for the Diploma in Midwifery.—The Candidate pays 1*l.* 6*s.* for the Midwifery Diploma, provided he takes it out within one month from the date of his Letters Testimonial; after that date the Fee will be 2*l.* 2*s.*

Examination of Candidates for the Letters Testimonial.—Examinations of Candidates for Letters Testimonial, special and stated, shall be held from time to time, as the Council may direct. Five Examiners at least shall be present at each examination. Each candidate shall be examined upon Anatomy, Physiology, Histology, the Theory and Practice of Medicine and Surgery, Materia Medica, Chemistry, Medical Jurisprudence, and the form of Prescription Writing; and shall perform such Surgical Operations and Dissections, and explain such Anatomical and Pathological preparations and Surgical appliances as the Examiners may require. Candidates for the Letters Testimonial of the College, being Licentiates of a College of Physicians or Graduates in Medicine of a University recognised by the Council of the College, shall be examined in General and Descriptive Anatomy, Histology, Physiology, the Theory and Practice of Surgery, Operative Surgery, and Surgical Appliances; and if, after examination on these subjects, they be recommended to the Council by the Court of Examiners for admission as Licentiates, they shall be so admitted by the Letters Testimonial of the College. In addition to the oral examinations, candidates for Letters Testimonial shall be required to give written answers to written or printed questions to be delivered to them in such manner as the Council may from time to time direct. Candidates whose answering shall be found insufficient will not be allowed to present themselves a second time until after the expiration of three months from their first examination, if the rejection takes place at any one of the Stated Examinations, or six months if it occurs at a Special Examination.

Order of Stated Examinations.—Candidates for Examination must return their Names to the Registrar of the College, and lodge their Fees and Certificates one clear week before the day specified for Examination; and no Candidate who has not so returned his name can be, under any consideration, admitted to these examinations. Each Candidate shall have a number assigned to him, by which alone he will be recognised during the examination.

Examination of Junior Class.—The Candidates shall be examined in alphabetical order, and the examination shall occupy three days, thus to be allotted:—1st day. Dissections on the Subject. 2nd day. Written Examination on Anatomy, Physiology, Histology, Materia Medica, and Chemistry. 3rd day. Viva Voce Examination on the same subjects. No Candidate will be allowed to proceed to the second day's examination who has not passed the first, or to the third who has not passed the second day's examination. First Day. Two or more subjects shall be provided for each examination, two Examiners and six Candidates being allotted to each of the subjects, the hours of examination being from 10 to 12 A.M., 12 to 2, and 2 to 4 o'clock P.M. Each Candidate is first to make a dissection of a region allotted to him, half an hour, at least, being given him for this purpose. Then he is to be examined on the Anatomy of that part, as well as upon that of those other regions which may have been dissected by other of the Candidates. The first

Digitized by Google

voce part of this examination is to be conducted by the two Examiners conjointly, one Candidate only being thus examined at a time on each subject. Second Day. Four hours shall be devoted to the written examination, which are to be thus allotted: Two hours, from 10 to 12 o'clock A.M., to Anatomy and Histology; and two hours, from 2 to 4 o'clock P.M., to Physiology, Materia Medica, and Chemistry. Eight questions in Anatomy shall be printed and given to each Candidate. These questions are to be such as all Candidates may be fairly expected to answer, an answer to four of them only being required If any Candidate has completed his paper before the end of the two hours, he may leave the hall upon handing his answers to the Examiner. The examination in Histology shall be a part of the written examination, and shall be thus conducted:—Two slides of different subjects are to be placed under two microscopes, and marked A, B. Five minutes are to be allowed each Candidate to examine them; he is then to go to his place and write his answer. Two similar slides are to be placed at the other end of the table, marked in the same way, which are to be examined by the Candidates in a similar manner. The presiding Examiner shall see that there is no communication between the Candidates, and each Candidate shall separately inspect *either* set of slides. During the second two hours (2 to 4 o'clock) three questions in Physiology, two in Materia Medica, and two in Chemistry, shall be given, which questions also shall be such as all Candidates may be fairly expected to answer. Third Day. The seven Examiners shall be summoned to attend on each day devoted to the viva voce examinations, at 4 o'clock P.M., to commence the oral examinations of the several Candidates; and four of the Examiners shall each be required to examine each Candidate for one quarter of an hour, at four separate tables, viz., three on Anatomy and Physiology, and one on Materia Medica and Chemistry.

Examination of Senior Class.—The Candidates shall be examined in alphabetical order, and the examination of each Candidate shall occupy four days, thus to be allotted:—1st day. Written Examination on Surgery, Practice of Medicine, Medical Jurisprudence, and Prescriptions. 2nd day. Viva Voce Examination on Surgery and Practice of Medicine. 3rd day. Clinical Examination. 4th day. Operative Surgery. First Day. Four hours shall be devoted to the Written Examinations, which are thus to be allotted: From 10 to 12 o'clock A.M. to Surgery. The number of Surgical questions shall be six, all of them being such that a Candidate qualified to practise may be fairly expected to answer in the allotted time. From 2 to 4 o'clock P.M. to Practice of Medicine, Medical Jurisprudence, and Prescriptions. Two printed questions shall be given in Practice of Medicine, two in Medical Jurisprudence, and two in Prescriptions, all of them being such that a Candidate qualified to practise may be fairly expected to answer in the allotted time. Second Day. The Viva Voce Examination on Surgery and Practice of Medicine is to be conducted by four of the Examiners, who shall each be required to examine, at separate tables, each of the Candidates, for one quarter of an hour, as to their knowledge of these subjects. Third Day. At the Clinical Examination two Examiners are to be allotted to each batch of Candidates, and the number of Candidates in each batch is not to exceed ten. No Candidate is to be examined in the hospital where he has been educated. The name of the hospital where each batch of Candidates is to assemble for Examination is to be posted in the hall of the College, immediately before the hour of meeting there. Each Candidate is to take notes of a case allotted to him, to be questioned upon that or some other case, and to be called upon to bandage or apply some surgical appliance. Fourth Day. The Examinations in Operative Surgery shall be conducted by the four Surgical Examiners, who shall meet previously for the purpose of comparing their questions, which shall then be written upon cards, to be deposited in a balloting-box, from which each Candidate, as called up, shall be required to draw his question, and to perform the operations there indicated. Each Candidate is to be required to perform two operations. He is to be questioned upon these or other operations, and to be examined as to his knowledge of Surgical Instruments and Appliances. No Candidate is to be allowed to present himself for examination after the first day who has not satisfied his Examiners upon the previous day; but all Candidates who have passed any of these days' examinations shall get credit for same. When presenting themelves upon a subsequent occasion a former Candidate will only be required to present himself upon that portion of the examination in which he had been remitted.

Examination of Candidates for the Fellowship.—Examinations for the Fellowship shall be held from time to time as the Council may direct. Five Examiners at least, together with the President, or Vice-President, and two members of the Council, must be present at each examination. Each candidate shall be examined on two days, with such an interval as the Council may appoint. The subjects of the first examination shall be Anatomy and Physiology (human and comparative); those of the second, Pathology, Therapeutics, the Theory and Practice of Medicine and Surgery, and such other branch of Medical Science as the Council may from time to time direct. In addition to the oral examinations, candidates shall be required to give written answers to written or printed questions, to be delivered to them in such manner as the Council may direct. In the Anatomical examinations the candidates shall also perform dissections and operations on the dead body. Candidates whose answering shall be found insufficient will not be allowed to present themselves a second time until after the expiration of one year from the first examination.

Examination for the Diploma in Midwifry.—The examination of candidates for the diploma in Midwifery shall be conducted by the Examiners in Midwifery. Such examinations shall be held, from time to time, as the Council may direct. Candidates for the Midwifery Diploma shall be publicly examined on the organization of the Female; the growth and peculiarities of the Fœtus; the Practice of Midwifery, and the Diseases of Women and Children; and, if approved of, shall receive a Licence or Diploma certifying the same. Should a candidate be rejected, he shall not again be admitted to an examination until a period of three months shall have elapsed; and he then shall be obliged to produce satisfactory evidence of his having been engaged in the study of this branch of Surgery subsequent to such rejection.

General Regulation of Schools.—Certificates shall not be received for attendance on Lectures delivered in Ireland, unless from Teachers in Schools permitting the visitation of the Council, and receiving their sanction; nor shall certificates be received from Teachers who deliver Lectures upon more than one distinct subject, as hitherto allotted to Professors in Colleges and Universities. This regulation shall not, however, exclude the certificates of two or more Teachers, who may deliver conjointly, separate, perfect, and distinct courses on Anatomy and Physiology, and on the Theory and Practice of Surgery. Certificates of attendance on Lectures and of the performance of Dissections, shall be received from Professors and Lecturers in all Universities, Colleges, and recognised Schools in her Majesty's dominions, as qualifications for the Fellowship and Letters Testimonial of this College; and also certificates of attendance on all Hospitals recognised by the Council, where Clinical instruction is given. The Lectures on Materia Medica, Medical Jurisprudence, Practical Chemistry, and Botany, shall be delivered during the Summer Session in the School of the College, and in the Schools recognised by the College. Certificates shall not be received for attendance on Lectures, unless such Lectures shall have been delivered by persons who shall have acquired, either by education or practice, such ample information on professional subjects generally as is required from candidates for the Fellowship of the College, and who shall have enjoyed such opportunities of acquiring information on the particular subjects upon which they propose to lecture, as the Council may consider necessary to qualify them to perform that duty.

Professors and Lecturers are required to transmit to the College, on or before 25th of November in each year, returns of the names of the pupils who shall have entered to attend, and are then actually attending, their respective Lectures or Demonstrations. They are also required to ascertain, from time to time, whether the students so returned are in attendance or not, as similar returns are required in the course of the session. Certificates of attendance are not received as qualification for the Letters Testimonial or Fellowship of the College unless the name of the candidate who produces them appears in these returns for the periods corresponding to the dates of such certificates.

with care of patients, as apprentice, pupil, assistant, clinical clerk, or dresser in hospital, dispensary, or with a registered practitioner.—9. Of having performed the operation of vaccination successfully under a recognised vaccinator. The examination for the Licence to practise is divided into two parts. The First—Chemistry, Physics, Botany, Anatomy, Physiology, Materia Medica, and Pharmacy. The Second—Medicine, Surgery, Pathology, Therapeutics, Midwifery, Forensic Medicine, and Hygiene. The first part may be undergone at the close of the second Winter Session, and after the Candidate has attended the Courses upon the several subjects named for this Examination, and the second after the completion of his studies at the termination of the fourth Winter Session. The professional examinations will be held *quarterly*, and will commence on the first and second Monday in the months of January, April, July, and October. They will be carried on as follows:—The *First Part*, for Junior Students, on the first Monday at Twelve o'clock noon; and on the Tuesday and Wednesday succeeding, at the same hour. Subjects:—Chemistry and Botany, *Monday:* Anatomy and Physiology, *Tuesday:* Materia Medica and Pharmacy, *Wednesday:* The *Second Part*, or *Pass* Examination for Senior Students, on the second Monday, at Twelve o'clock, noon; and on the Tuesday and Wednesday succeeding, at the same hour. Subjects: — Medicine and Surgery, *Monday:* Midwifery and Diseases of Women and Children, *Tuesday:* Forensic Medicine and Hygiene, *Wednesday:* Clinical Examination, *Thursday.* The first two hours of each day will be devoted to writing Answers, and after that, there will be an oral and practical Examination. Certificates and Diplomas will be granted to the successful Candidates on the Friday following, at three o'clock P.M. Candidates who fail to pass the first part of the Professional Examination will be remitted to their studies for *three* months, and unsuccessful Candidates at the Pass Examination will not be re-admitted until after the expiration of *six* months. Candidates at the Examination in Anatomy are liable to be called on to perform *dissections*, and at the Examination in Surgery, to perform one or more *operations* on the dead subject.

Doctors of Medicine of any of the Universities of the United Kingdom, or Surgeons of any of the Royal Colleges of Surgeons, or Licentiates of any of the Royal Colleges of Physicians, whose qualifications as such appear in the Medical Register, and who, having first passed an Examination in Arts, have also served the required term at *practical* Pharmacy, may obtain the Licence of the Hall by undergoing an Examination—the former in Pharmacy,* and the latter in Medicine and Pharmacy. Licentiates of the London Society of Apothecaries are admitted *ad eundem*.

The Licence entitles its Possessor to practise Medicine and Pharmacy in Great Britain and Ireland, and is recognised as a full qualification *in Medicine* for appointments in the Medical Department of the Army, Navy, and under the Poor Law Boards in England and in Ireland.

Candidates for the *Licence* must lodge their Testimonials, and enrol their names and address with the Clerk at the Hall, in Dublin, a week prior to the day of Examination.

Candidates for *The Certificate of Assistant* to an Apothecary, in compounding and dispensing Medicine, will be examined in the British Pharmacopœia and in *Pharmacy*, scientific and practical, including the history, characters, and qualities of Medicines, with their preparations and doses, and in the translation of Latin Prescriptions.

---

* The Examination in Pharmacy will include Practical Pharmacy, Pharmaceutic Chemistry, Toxicology, Medical Botany, and the British Pharmacopœia.

LEDWICH SCHOOL OF ANATOMY, MEDICINE, AND SURGERY, PETER-STREET, DUBLIN.

FOUNDED 1810.

This School, claiming priority of foundation many years before any of its kindred unchartered institutions were projected, was established in 1810 by J. Kirby. At this period the Schools of the College of Surgeons and University were the only sources of medical education in Ireland, and this necessarily involved an absence of that competition always so conducive to the true spirit of improvement. Since its foundation, this School has maintained its character for the sound principles of its anatomical and surgical instruction, and numbers amongst its former pupils several of the most distinguished teachers of the Irish School of Medicine.

Anatomy, Physiology, Pathology, &c.: Drs. Ledwich, T. P. Mason, Kelly, and Ward. *Theory and Practice of Surgery:* Messrs. Wharton and Barton. *Surgical and Descriptive Anatomy, Demonstrations and Dissections:* Messrs. T. P. Mason, E. Ledwich, Glanville, Ward, Robinson, Madden, F. T. Porter, S. R. Mason, and T. Nixon. *Theory and Practice of Medicine:* Dr. Foot. *Midwifery and Diseases of Women and Children:* Dr. S. R. Mason.

Materia Medica and Therapeutics: Dr. McDowell. *Forensic Medicine and Hygiene:* Dr. R. Travers. *Chemistry, Practical Chemistry, and Natural Philosophy:* Dr. E. Lapper. *Botany:* Dr. McNab.

EDWARD LEDWICH, Secretary, 7, Harcourt-st. Dublin.

This Hospital, the largest in Dublin, affords pupils a full opportunity of studying both Accidents and Diseases in their various forms. Wards are specially reserved for Fever and other contagious diseases.

Certificates of Attendance upon this Hospital are recognised by all the licensing bodies of the United Kingdom.

DR. C. J. NIXON, *Hon. Sec.*, 32, Upper Merrion-st.

MEATH HOSPITAL AND COUNTY OF DUBLIN INFIRMARY.

Phys., Drs. A. Wynne Foot and J. W. Moore; *Surgs.*, Messrs. G. H. Porter, M.D., J. H. Wharton, P. C. Smyly, M.D., R. Macnamara, R. Perssé White, and L. H. Ormsby.

The Hospital, which contains 120 beds, and to which an extensive Dispensary, Lending Library, and Physical Laboratory are attached, is within a few minutes' walk of the University, the College of Surgeons, and the Ledwich School of Medicine.

Two Medical and Two Surgical Clinical Lectures will be delivered each week.

An additional Ward has been erected for the reception of Children, in which the Pupils will have an opportunity of studying that highly-important subject—Infantile Disease.

Certificates of Attendance at this Hospital are recognised by all the Universities, Colleges, and Licensing Bodies in the United Kingdom.

All Fellows of the College are, *ipso facto*, Members of the Society; and Licentiates of the College are eligible as ordinary members of the Society. The Council are authorized to elect by ballot, as Associate Members, such medical and surgical practitioners, not Fellows or Licentiates of the College, as they may consider likely to co-operate with their efforts for the improvement of medical and surgical knowledge. The council is elected annually by ballot on the first Monday in November, by the Fellows of the College of Surgeons and those Fellows of the King and Queen's College of Physicians who are members of the Society. The Society holds its meetings in the College of Surgeons every second Friday in the month during the winter, at half-past eight o'clock P.M., when both oral communications are made and papers are read and may be discussed, many of which, already published, have excited much interest in the Profession at home and abroad. The expenses are borne by the College, without any charge to members. Any gentleman, whether member or not, having a communication to make, and unable to attend, may have it read by one of the Secretaries. Naval and Military Surgeons stationed in Dublin, or within ten miles thereof, are enrolled as temporary members of the Society on sending their names to the Secretaries.

ROYAL MEDICAL BENEVOLENT FUND SOCIETY OF IRELAND.—FOUNDED 1842 BY WILLIAM KINGSLEY, M.D., F.R.C.S.I.

Patroness, H.M. Gracious Majesty the Queen. *Vice-Patron*, His Excellency the Lord-Lieutenant.

OBJECT AND RULES OF THE SOCIETY.

1. That a charitable fund be created by Donations and Subscriptions, to be called the Medical Benevolent Fund of Ireland.

2. That contributions be received from all persons friendly to the objects of the Society, though not belonging to the profession.

3. That the object of the Fund be the relief of Medical men under severe and urgent distress, occasioned by sickness, accident, or any other calamity.

4. That any Physician or Surgeon labouring under such afflictions be considered a fit object for the charity.

5. That the claims of contributors shall, as far as possible, have the preference, but that contributions to the Fund give no claim of right to relief, the Fund being one of pure charity; and that each case be judged according to the urgency of the distress.

6. That under circumstances of peculiar emergency, relief may be extended to the widows and orphans (under age) of Physicians and Surgeons, it being understood that it is not the design of this Fund to relieve Medical men from the necessity of providing for their families by ordinary life assurances, or such other means as prudence dictates.

This Society was formed in 1862 by the Union of the Belfast Medical Society with the Clinical and Pathological and the Ulster Medical Protective Societies. It has for its objects to afford its members increased facilities of consulting the best medical works and periodicals, by means of the Library; of deriving mutual instruction on medical subjects by means of its discussions and its Pathological Museum; and, as a collective body, of protecting the interests of the Medical Profession. It possesses a well-selected and valuable Library of ancient and modern works, medical and scientific; a Museum, containing many rare pathological specimens, both of which are in the Society rooms in the General Hospital; and almost all the Medical Journals are kept for the convenience of members. The Society meets monthly, from May to November; and fortnightly on Wednesday, at eight P.M., from November to May. The Annual Meeting for the election of office-bearers, &c., is held on the first Monday in November, at the Society's rooms, Belfast General Hospital.

Solicitors, Messrs. Geale and Dwyer, 18, Talbot-street.

To facilitate reference to this List, the following explanation is necessary:—

1. The COUNTIES are arranged *alphabetically*; as are also the UNIONS under each County.

2. Each *paragraph* contains the particulars of *one union*. The name of the Union is given in *small capitals*, and the name of each district in *italics*. The letter P is placed before the *Population* and the letter A before the *Area* in *Acres*. Then follows the name of the Medical Officer, with the amount of his salary.

3. To a few of the Unions an asterisk * has been prefixed, to signify that the Clerks of such Unions have not replied to the inquiries forwarded to them. For the correctness of the entries so marked the Editors do not hold themselves responsible.

4. In those cases where the amounts of extras have been given, it may, *as a rule*, be inferred that both medical fees and vaccination charges have been included.

REGULATIONS

OF THE

ARMY & NAVY MEDICAL DEPARTMENTS,

AND

INDIAN MEDICAL SERVICE.

MEDICAL DEPARTMENT OF THE ARMY.

Office, 6, *Whitehall-yard*, *London*, S.W.

Director-General, Sir William Muir, K.C.B., M.D., Hon. Phys. to H.M. the Queen; *Surg.-Gen.* (*Medical Branch*), W. Munro, C.B.; *Dep.-Surg.-Gen.* (*Statistical Branch*), Sir A. D. Home, V.C.; *Dep.-Surg.-Gen.* (*Sanitary Branch*), J. Irvine, M.D.; *Surgeons Major*, Dr. F. Collins, Dr. G. W. McNalty, and Dr. A. F. S. Clarke; *Senior Clerk*, Theophilus H. Clarke, Esq.

QUALIFICATIONS OF CANDIDATES FOR COMMISSIONS IN THE ARMY MEDICAL SERVICE, WITH A SUMMARY OF THE RULES BY WHICH THE PAY, PROMOTION, AND RETIREMENT OF MEDICAL OFFICERS ARE REGULATED AND DETERMINED.

1. Every Candidate desirous of presenting himself to compete for a commission in the Army Medical Department must be 21 years of age and not over 32 years at the date of commencement of the competitive examination. He must produce an extract from the registrar of his birth, or in default, a declaration, made before a magistrate by one of his parents or guardians, giving his exact age. He must also produce a recommendation from some person of standing in society—not a member of his own family—to the effect that he is of regular and steady habits, and likely in *every* respect to prove creditable to the Department if a commission be granted; and also a certificate of moral character, from the parochial clergyman, if possible.

2. The Candidate must sign a declaration upon honour that both his parents are of unmixed European blood, and that he labours under no mental or constitutional disease, nor has any hereditary tendency thereto, nor any imperfection or disability that can interfere with the efficient discharge of the duties of a medical officer in any climate; also that he does not hold, and has never held, any commission or appointment in the public services. His physical fitness will be determined by a Board of Medical Officers, who are required to certify that the candidate's vision is sufficiently good to enable him to perform any surgical operation without the aid of glasses. A moderate degree of myopia would not be considered a disqualification, provided it does not necessitate the use of glasses during the performance of operations, and that no organic disease of the eyes exists. The Board must also certify that he is free from organic or other disease, and from constitutional weakness, or tendency thereto, or other disability of any kind likely to unfit him for military service in any climate.

3. Certificates of age, registration of diplomas, &c., and of character, must accompany the declaration when signed and returned.

4. Candidates will be examined by the Examining Board in the following compulsory subjects, and the highest number of marks attainable will be distributed as follows:—

	Marks.
a. Anatomy and physiology	1000
b. Surgery	1000
c. Medicine, including therapeutics, the diseases of women and children	1000
d. Chemistry and pharmacy, and a practical knowledge of drugs	100

N.B.—The examination in Medicine, and Surgery, will be in part practical, and will include operations on the dead body, the application of Surgical Apparatus, and the examination of Medical and Surgical Patients at the bedside.

The eligibility of each Candidate for the Army Medical Service will be determined by the result of the examinations in these subjects only.

Examinations will also be held in the following voluntary subjects, for which the maximum number of marks will be—

	Marks.
French and German (150 each)	300
Natural Sciences	300

The knowledge of modern languages being considered of great importance, all intending competitors are urged to qualify in French and German.

Digitized by Google

The natural sciences will include comparative Anatomy, Zoology, Natural Philosophy, Physical Geography, and Botany, with special reference to Materia Medica.

The number of marks gained in both the voluntary subjects will be added to the total number of marks obtained by those who shall have been found qualified for admission, and whose position on the list of successful competitors will thus be improved in proportion to their knowledge of modern languages and natural sciences.

5. After passing this examination, every Candidate will be required to attend one entire Course of Practical Instruction at the Army Medical School, on—(1.) Hygiene. (2.) Clinical and Military Medicine. (3.) Clinical and Military Surgery. (4). Pathology of Diseases and Injuries incident to Military Service.

The following extracts from the Royal Warrant of April 28th, 1876 (Clause 58, Army Circulars, 1876), are republished for the information of Candidates for commissions in the Army Medical Department:—

1. The ranks and rates of pay of the officers of the Army Medical Department shall be as follows:—

	Daily Pay. £ s. d.	Charge Pay.
Surgeon-General	2 0 0	The Principal Medical Officer of an army in the field, consisting of 10,000 men and upwards, 1*l.* daily; of 5,000 men and upwards, 15*s.* daily; of less than 5,000, 10*s.* daily. Or, the Principal Medical Officer of a colony where the number of commissioned officers and enlisted men is 1,500 and upwards, 5*s.* daily.
After 25 years' service	2 5 0	
„ 30 „	2 7 0	
„ 35 „	2 10 0	
Deputy Surgeon-General	1 10 0	
After 25 years' service	1 12 0	
„ 30 „	1 15 0	
„ 35 „	1 17 0	
Surgeon-Major, on appointment	1 0 0	
After 5 years' service as such	1 5 0	
Surgeon, on appointment, £260 a year		
After 10 years' service	0 17 6	

2. The pay of officers shall be issued monthly in arrear.

3. The relative rank of the officers of the Army Medical Department shall be as follows:—(1.) A Surgeon-General shall rank as Major-General, according to the date of his commission. (2.) A Deputy Surgeon-General shall rank as Colonel, according to the date of his commission. (3.) A Surgeon-Major shall rank as Major, according to the date of his commission; after twenty years' full-pay service as Surgeon and Surgeon-Major, he shall rank as Lieutenant-Colonel, but junior of the latter rank. (4). A Surgeon shall rank as Lieutenant, according to the date of his commission; and, after six years' full-pay service, as Captain, according to the date of the completion of such service.

4. The relative rank of these officers shall regulate choice of quarters, rates of lodging-money, servants, fuel and light, or allowances in their stead, detention and prize-money, as well as allowances granted on account of wounds or injuries received in action, and pensions and allowances to widows and families.

5. Forage shall be granted to Officers of the Army Medical Department for such number of horses as are necessarily kept by them for duty.

6. Admission to the Army Medical Department shall be by public competition.

7. Every Candidate for appointment to the Army Medical Department shall possess two diplomas or licences, one to practise Medicine, and the other Surgery, in Great Britain or Ireland, and be registered under the Medical Act in force at the time of his appointment.

8. A successful Candidate, who, having passed through a course of instruction at the Army Medical School at Netley, in Military Medicine, Surgery, Hygiene, and Pathology, shall have proved, after examination, that he possesses a competent knowledge of those subjects, shall receive a commission as Surgeon for a limited period of 10 years' service on full-pay. From the date of joining at Netley, and up to that of passing his final examination, a Candidate shall receive 5*s.* a day.

9. On the completion of 10 years' commissioned service, unless the Surgeon be specially selected for further employment in the Medical Department of our Army, or if he be unwilling to continue to serve therein, his services shall be dispensed with, and he shall be entitled to receive, in lieu of all pension or retirement, pension for wounds excepted, the sum of £1000.

10. A Surgeon of less than 10 years' service, disqualified for duty by ill-health, certified by a Board of Medical Officers to have been contracted in and by the Service, may, at the discretion of our Secretary of State for War, be granted half-pay at a rate not exceeding 8*s.* a day if he have served 5 years or more, or 6*s.* a day if he have served less than 5 years, for a period not exceeding 6 months at one time.

11. At the expiration of that period of 6 months, if the Surgeon be able to resume his duties, he shall be entitled to complete his term of 10 years' service. If he be unable to resume duty, as certified by a Board of Medical Officers, he shall be allowed, if he have not served 5 years, a further period of 6 months, without half-pay; at the expiration of which period, if still unable to resume duty, his services shall be dispensed with.

12. If the Surgeon have served 5 years on full-pay, and be unable to resume duty as certified by a Board of Medical Officers, his services shall be dispensed with, and he shall be entitled to receive, in lieu of all further pension or pay, pensions for wounds excepted, a gratuity at one of the following rates, viz.:—If he shall have completed 9 years' full-pay service, 800*l.*; 8 years'

full-pay service, 700*l.*; 7 years' full-pay service, 600*l.*; 6 years' full-pay service, 500*l.*; 5 years' full-pay service, 400*l.*

13. If a Surgeon be unable to complete his 10 years' service from any cause other than wounds or ill-health, certified by a Board of Medical Officers to have been caused in and by the service, or reduction of establishment, he shall be allowed not more than 6 months' leave without pay, after which, if unable to resume duty, his services shall be at once dispensed with, and he shall have no further claim on the Department.

14. If the service of an Officer be temporarily dispensed with in consequence of a reduction of establishment, he shall be granted the rates of half-pay fixed by Article 10 until there be an opportunity of re-employing him; or if he have served 5 years, he may retire from the service with a gratuity according to the rates specified in Article 12.

15. Every year it shall be competent for our Commander-in-Chief, on the recommendation of the Director-General of the Army Medical Department, to select, with the approval of our Secretary of State, a number of Surgeons not exceeding six, who shall be retained in the service, and shall be promoted after 12 years' service on full-pay to the rank of Surgeon-Major.

16. All promotion from the rank of Surgeon-Major to that of Deputy Surgeon-General, and from the rank of Deputy Surgeon-General to that of Surgeon-General, shall be given for ability and merit upon the selection of our Commander-in-Chief with the approval of our Secretary of State; and the grounds of such selection shall be stated to us in writing and recorded in the Department. In all such cases the amount of foreign service shall be expressly stated.

17. A Medical Officer retiring after full-pay service of 25 years and upwards, may, if recommended for the same by the head of his Department, receive a step of honorary rank, but without any consequent increase of half-pay.

18. Good Service Pensions shall be awarded to the most meritorious Officers of the Army Medical Department, under such regulations as shall be from time to time determined by us, with the advice of our Secretary of State.

19. Six of the most meritorious Officers of the Army Medical Department shall be named our Honorary Physicians, and six our Honorary Surgeons.

20. Medical Officers shall have a right to retire on half-pay after 20 years' service; Medical Officers of the rank of Surgeon-Major, or Surgeon, shall be placed on the Retired List at the age of 55, and all Surgeons-General and Deputy Surgeons-General at the age of 60 years.

21. Our Secretary of State may, when he shall deem it fit, employ Medical Officers on the half-pay list in special situations at such rates of pay, in addition to half-pay, as he shall from time to time determine; but such Officers shall vacate their appointments on attaining the age of 65 years.

22. A Medical Officer who, having voluntarily resigned his commission, has subsequently been permitted to re-enter the Department, shall not, except under very special circumstances to be approved by our Secretary of State, be allowed to reckon his former service.

SERVICE ON THE WEST COAST OF AFRICA.

23. Service of Medical Officers upon the West Coast of Africa shall be voluntary.

24. Each year or portion of a year shall be allowed to reckon double towards retirement or towards the gratuities fixed by Articles 9 and 12, but not towards increased pay, provided that the Officer shall serve at least 12 months on the West Coast of Africa.

25. For each year's service on the Coast, a Medical Officer shall be entitled to a year's leave at home, and for every additional period beyond a year he shall have an equivalent extension of leave.

26. Officers who may volunteer for service on the West Coast of Africa shall receive double pay while actually serving on the Coast.

NON-EFFECTIVE PAY.

27. A Medical Officer of more than 10 years' service placed on half-pay by reduction of establishment, or on the report of a Medical Board in consequence of wounds or ill-health, caused in and by the discharge of his duties, or on account of age (under Article 20), shall be entitled to half-pay in accordance with the following scale:—

		Daily Pay. £	s.	d.
Surgeon-General	after 30 years' service	1	17	6
" "	" 25 "	1	13	6
" "	" 20 "	1	10	0
Deputy Surgeon-General	" 30 "	1	5	6
" "	" 25 "	1	2	6
" "	" 20 "	1	1	0
Surgeon-Major	" 25 "	1	0	0
" "	" 20 "	0	16	6
" "	" 15 "	0	13	6
" "	" 12 "	0	11	0
Surgeon	" 10 "	0	10	0

28. The rate of half-pay awarded to Officers retiring for their own convenience, after 20 years' service on full-pay, under Article 20, shall not exceed one-half of their full-pay at the time of retirement.

29. Every Medical Officer who shall retire after a service upon full-pay of 25 years, shall be granted a rate of half-pay equal to seven-tenths of the daily pay he may have been in receipt of

when thus retiring on half-pay, provided he shall have served 8 years in his rank, or shall have served abroad for 10 years in all ranks, or for 5 years with an army in the field. An Officer of 25 years' full-pay service, whose service falls within neither of these conditions, shall be entitled to only seven-tenths of the daily pay he was in receipt of prior to his last promotion.

30. A Medical Officer of 20 years' full-pay service, placed temporarily on half-pay on account of ill-health, may, however, be allowed to retire on permanent half-pay at the rates fixed by Article 27, if after 1 year on half-pay he shall be reported by a Medical Board to be permanently unfit for further service.

31. In all matters not specially provided for in our present Warrant, the Officers of the Medical Department of our Army shall be subject to the General Regulations for the Departments of our Army.

N.B.—The rates of pay, including allowances while serving in India, will range from 317 rupees (£31 14s.) to 433 rupees (£43 6s.) per month, according to length of service.

ARMY MEDICAL SCHOOL AT NETLEY.

President of the Senate.—Sir William M. Muir, K.C.B., M.D., Director-General of the Army Medical Department.

Members of the Senate.—Surgeon-General Sir Joseph Fayrer, M.D., K.C.B., C.S.I., Physician to the Council of India; Sir Alexander Armstrong, M.D., K.C.B., F.R.S.; The Principal Medical Officer Royal Victoria Hospital; and the Professors of the Army Medical School.

Professors.—Surgeon-General T. Longmore, C.B., Professor of Military Surgery; Inspectors-General W. C. Maclean, M.D., C.B., Professor of Military Medicine; William Aitken, M.D., F.R.S., Professor of Pathology; F. S. B. F. de Chaumont, M.D., Professor of Military Hygiene.

Assistant Professors.—Surgeons-Major J. H. Porter, W. M. Webb, Surgeon J. L. Notter, M.D., and Surgeon-Major J. P. H. Boileau, M.D.

Candidates for commissions in the Army and Navy and in the Queen's Indian Service proceed to Netley after passing the examination in London. At Netley they attend the medical and surgical practice of the Royal Victoria Hospital, and learn the system and arrangements of naval and military hospitals. During four months they attend the lectures given by the professors and assistant-professors, and go through a course of practical instruction in the hygienic laboratory and microscopical room.

MEDICAL DEPARTMENT OF THE NAVY.

Director-General—Sir Alexander Armstrong, K.C.B., M.D., F.R.S., LL.D.
Med. Off. at Admiralty—Dep.-Insp.-Gen. T. R. Pickthorn.

QUALIFICATIONS AND REGULATIONS FOR THE EXAMINATION OF CANDIDATES FOR COMMISSIONS IN THE MEDICAL SERVICE OF THE ROYAL NAVY.

6th July, 1875.

The Lords Commissioners of the Admiralty are pleased to direct that the following Regulations relative to the examination of Candidates for the appointment of Surgeon in the Royal Navy shall in future be adopted:—

1. Every Candidate desirous of presenting himself for admission to the Naval Medical Service must be not under 21 nor over 28 years of age. He must produce a Certificate from the District Registrar, in which the date of birth is stated; or, if this cannot be obtained, an affidavit from one of the parents or other near relative, who can attest the date of birth, will be accepted. He must also produce a Certificate of moral character, signed by a Clergyman or a Magistrate to whom he has been for some years personally known, or by the President or Senior Professor of the College at which he was educated.

2. He must be free from organic disease, and will be required to make a declaration that he labours under no mental or constitutional disease or weakness, nor any other imperfection or disability that can interfere with the most efficient discharge of the duties of a Medical Officer in any climate.

His physical fitness will be determined by a Board of Medical Officers, who are to certify that his vision comes up to the required standard, which will be ascertained by the use of Snellen's test types.

He must also attest his readiness to engage for general service, and to proceed on foreign service when required to do so.

3. He must be registered under the Medical Act in force at the time of his appointment, as licensed to practise Medicine and Surgery in Great Britain or Ireland.

4. Certificates of registration, character, and age, must accompany this Schedule when filled up and returned.

5. Candidates will be examined by the Examining Board in the following subjects:—

Anatomy and Physiology.

Surgery.

Medicine, including Therapeutics, the diseases of women and children, Chemistry and Pharmacy, and a practical knowledge of Drugs. (The examination in Medicine and Surgery will be in part practical, and will include operations on the dead body, the application of Surgical Apparatus, and the examination of Medical and Surgical patients at the bedside.)

Digitized by Google

The eligibility of each Candidate for the Naval Medical Service will be determined by the result of the examinations in these subjects only.

Candidates who desire it will be examined in Comparative Anatomy, Zoology, Natural Philosophy, Physical Geography, and Botany, with special reference to Materia Medica; also in French and German; and the number of marks gained in these subjects will be added to the total number of marks obtained in the obligatory part of the examination by Candidates who shall have been found qualified for admission, and whose position on the list of successful competitors will thus be improved in proportion to their knowledge of these branches of science.

6. After passing this examination, every Candidate will be required to attend one entire Course of Practical Instruction in the Medical School at Netley, on—

(1) Hygiène.
(2) Clinical and Naval and Military Medicine.
(3) Clinical and Naval and Military Surgery.
(4) Pathology of Diseases and Injuries incident to Naval and Military Service.

7. At its conclusion, the Candidate will be required to pass an examination on the subjects taught in the School.

If he give satisfactory evidence of being qualified for the practical duties of a Naval Medical Officer, he will be eligible for a commission as Surgeon.

8. During the period of his residence at the Netley Medical School each Candidate will receive an allowance of 5s. per diem with quarters, or 7s. per diem without quarters, to cover all costs of maintenance; and he will be required to provide himself with uniform—viz., the regulation undress uniform of a Surgeon, but without the sword.

9. All Candidates will be required while at Netley, to conform to such rules of discipline as the Senate may from time to time enact.

10. After completing three years' Full-Pay Service, Surgeons will be allowed to be examined for the rank of Staff Surgeon, but no Surgeon can be promoted to the rank of Staff Surgeon until he shall have served five years, two of which must have been in a ship actually employed at sea.

REGULATIONS SHOWING RANK, PAY, AND POSITION OF NAVAL MEDICAL OFFICERS.

1. Promotion to the rank of Fleet Surgeon is open to Officers for distinguished or special service, although 20 years on Full Pay may not have been completed; such Fleet Surgeons will have 16s. a-day Half-Pay.

2. Fleet Surgeons rank with Commanders, according to date of Commission.

3. The whole time served on Full Pay as a Surgeon to be allowed to Staff Surgeons, to qualify for the rank of Fleet Surgeon, provided the examination for Staff Surgeon is passed before the Officer completes 10 years' service, otherwise only 10 years served as Surgeon will be allowed to count.

4. Fleet Surgeons are appointed to the Flag Ships of Commanders-in-Chief on Foreign Stations with an allowance of 5s. a-day in addition to their established pay.

5. The Hospital Allowances for Naval Medical Officers at Home and Abroad, in lieu of provisions for themselves and servants, and for fuel and light, are as follows:—

	At Home. £	Abroad. £
Inspectors-General of Hospitals	85	130
Deputy Inspectors-General	67	112
Fleet Surgeons and Staff Surgeons,	58	112
Surgeons	39	108

In cases where Medical Officers draw provisions or fuel from public stores, they will be charged for the same at cost price.

6. The travelling allowances, extra pay, lodging money, and compensation for losses, are fixed for Naval Medical Officers according to their relative rank in the Service.

7. Medical Officers have cabins according to their relative rank in the Service.

8. The Full and Half Pay of Naval Medical Officers is in accordance with the following scale:—

ADMIRALTY,
7th October, 1875.

INDIAN MEDICAL SERVICE.

REGULATIONS FOR THE EXAMINATION OF CANDIDATES FOR THE APPOINTMENT OF SURGEON IN HER MAJESTY'S INDIAN MEDICAL SERVICE.

1. All natural-born subjects of Her Majesty, between 22 and 28 years of age at the date of examination, and of sound bodily health, may be candidates. They may be married or unmarried. They must possess a Diploma in Surgery, or a licence to practise it, as well as a Degree in Medicine or a licence to practise it in Great Britain or Ireland.

2. They must subscribe and send in to the Military Secretary, India Office, Westminster, *as to reach that address at least a fortnight before the date fixed for the Examination*, a declaration according to the annexed form.

3. This declaration must be accompanied by the following documents:—

(*a*) Proof of age, either by the candidate's own declaration (form of which can be obtained at the India Office) or by extract from the register of the parish in which the Candidate was born. A certificate of baptism, which does not afford proof of age, will be useless.

(*b*) A certificate of moral character from a magistrate, or a minister of the religious denomination to which the Candidate belongs, who has personally known him for at least two preceding years.

(*c*) A certificate of registration, in accordance with the Medical Act of 1858, of the degrees, diplomas, and licences possessed by the Candidate.

4. The physical fitness of Candidates will be determined previous to examination by a Board of Medical Officers, who are required to certify that the Candidate's vision is sufficiently good to enable him to perform any surgical operation without the aid of glasses. A moderate degree of Myopia would not be considered a disqualification, provided it did not necessitate the use of glasses during the performance of operations, and that no organic disease of the eyes exists.

Every Candidate must also be free from organic disease of other organs, and from constitutional weakness, or other disability likely to unfit him for Military Service in India.

5. On producing the foregoing qualifications, the Candidate will be examined by the Examining Board in the following compulsory subjects, and the highest number of marks attainable will be distributed as follows:—(*a.*) Anatomy and Physiology, 1000 marks. (*b.*) Surgery, 1000 marks. (*c.*) Medicine, including Therapeutics, the Diseases of Women and Children, 1000 marks. (*d.*) Chemistry and Pharmacy, and a practical knowledge of Drugs, 100 marks. (The examination

in medicine and surgery will be in part practical, and will include operations on the dead body, the application of surgical apparatus, and the examination of medical and surgical patients at the bedside).

6. The eligibility of each Candidate for the Indian Medical Service will be determined by the result of the examinations in these subjects only.

7. Candidates, who desire it, will be examined in French, German, and Hindustani, Comparative Anatomy, Zoology, Natural Philosophy, Physical Geography, and Botany with special reference to Materia Medica.

8. The number of marks gained in these subjects will be added to the total number of marks obtained in the obligatory part of the examination by Candidates who shall have been found qualified for admission, and whose position on the list of successful competitors will thus be improved in proportion to their knowledge of modern languages and natural sciences.

9. The maximum number of marks allotted to the voluntary subjects will be as follows:—French, German, and Hindustani (150 each), 450 marks; Natural Science, 300 marks.

10. The subjects for this part of the examination will be taken from the following books:—"Animal Kingdom," by W. S. Dallas, F.L.S. "Outlines of the Structure and Functions of the Animal Kingdom," by Rymer Jones; or "Cours Elémentaire d'Histoire Naturelle," par Milne Edwards. Lindley's "School Botany," Lindley's "Medical and Economic Botany," Henfrey's "Elementary Course of Botany." "Elements of Natural Philosophy," by Golding Bird and C. Brooks. "Physical Geography," by Mrs. Somerville.

11. The Examiners in London will prepare a list in order of merit, with the marks affixed in the different subjects, to be transmitted to the Director-General and communicated to the Professors of the Army Medical School. If any Candidate is found to be deficient in any particular subject, this shall be stated, in order that he may receive special instruction on the point at Netley.

12. After passing their preliminary examination, Candidates will be required to attend one entire course of practical instruction at the Army Medical School, before being admitted to examination for a commission, on—(1) Hygiène. (2) Clinical and Military Medicine. (3) Clinical and Military Surgery. (4) Pathology of Diseases and Injuries incident to Military Service. These courses are to be of not less than four months' duration; but Candidates who have already gone through a course at Netley as Candidates for the Army or Naval Medical Service may, if thought desirable, be exempted from attending the School a second time.

13. During the period of his residence at the Army Medical School, each Candidate will receive an allowance of 5s. per diem, with quarters, or 7s. per diem without quarters, to cover all costs of maintenance; and he will be required to provide himself with uniform (viz., the regulation undress uniform of a Surgeon of the British Service, but without the sword).

14. All Candidates will be required to conform to such rules of discipline as the Senate may, from time to time, enact.

15. At the conclusion of the course, Candidates will be required to pass an examination on the subjects taught in the School. The examination will be conducted by the Professors of the School.

The Director-General, or any medical officer deputed by him, may be present and take part in the examination. If the Candidate give satisfactory evidence of being qualified for the practical duties of an Army Medical Officer, he will be eligible for a commission as Surgeon.

16. The position of the Candidates on the list of Surgeons will be determined by the combined results of the preliminary and of the final examinations, and, so far as the requirements of the service will permit, they will have the choice of Presidency in India, according to their position in that list.

N.B. The examinations for admission to the Indian Medical Service will usually take place twice a year—viz., in February and in August.

LIFE DEPARTMENT.

In a Life Assurance Contract, Security should be the paramount consideration, and next to Security in importance are the terms and conditions on which a Policy of Assurance may be obtained. The conditions of the *Alliance* have been recently revised and placed on a footing eminently favourable to the Assured, and the rates of Premium for Policies which do not participate in profits have been materially reduced. Assurances may be thus effected with the Office, free from many restrictions which usually attach to Life Policies and at a minimum cost in premium, while the Security afforded by the large Capital and Reserves of the Company is of the highest character.

Participating Policy-holders receive 80 per cent. of the declared divisible profit from all Life Assurances.

Important concessions have been made to the Assured as regards Foreign travel and residence.

Under favourable circumstances Whole World Policies are granted free of extra premium.

The following are specimens of the reduced charges for Assurance for the whole of life, without profits :—

£1	12s.	7d.	per cent.	per annum	for life aged	20	next birthday.
2	1	8	,,	,,	,,	30	,,
2	16	4	,,	,,	,,	40	,,
4	2	0	,,	,,	,,	50	,,

Premiums for Policies payable during the lifetime of the Assured, and for other classes of non-participating Policies, are equally favourable.

FIRE DEPARTMENT.

Fire policies are granted on the usual terms.

The Company have Branch Offices at Edinburgh, Liverpool, Manchester, Sheffield, Birmingham, Ipswich, Bury St. Edmund's, Newcastle-on-Tyne, and Wrexham (fire branch only).

Life and fire proposal forms, detailed prospectuses, and statements of accounts may be had on application to the Head Office of the Company, or to any of the branch offices.

The Directors are open to entertain applications for Agencies from parties who are in a position to introduce business of a high class.

This Office has been established more than 69 years, and its present magnitude and prosperity prove the soundness of the principle on which it has been conducted.

LIFE DEPARTMENT.

The Accumulated Premiums are over **£1,550,000.** The Annual Income exceeds **£160,000.** The sum of **£6,000,261** has been paid in claims under Life Policies.

Large Bonuses have been declared and paid as additions to the amounts assured.

Premiums on Policies have been reduced where parties have so applied the Bonuses on their Policies.

Persons assuring in Great Britain have the option of **Participating** Rates of Premium, or of **Non-Participating** Rates.

Combined provision may be made for old age and early death, so that a person may secure a sum to be paid *to himself* at an age agreed upon, or to his Executors if he should die before that age.

Residence in countries beyond the limits of Europe is allowed on favourable terms; in most temperate climates without extra Premium, beyond a moderate charge for the voyage only.

Whole World Assurances are granted.

Notices of the Assignment of Life Policies are received and acknowledged.

Advances are made on Policies to the extent of their value.

Persons desiring to surrender their Assurances may receive their value in money, or, in lieu thereof, may obtain a new Policy **without further payment of Premium.**

The Directors are ready to receive proposals for Assurances, on any contingency involving payment of a sum at death.

FIRE DEPARTMENT.

This Company undertakes the Assurance of almost every species of Property in the United Kingdom, at Rates of Premium and upon principles which will be found quite as advantageous to the interest of the Assured as those offered by any other Office. The Directors can confidently refer to the well-known character of the Company for liberality and promptitude in the discharge of claims made upon it during the many years it has been established.

No charge made for Policy Stamps.

Renewals should be paid within fifteen days after the respective Quarter-days when they become due.

Losses occasioned by **Lightning** will be paid.

The **Policies** of the **Company** extend to cover **Losses** occasioned by the **Explosion of Gas.**

The Company is ready to receive applications for Agencies in those Towns and Districts in which it is not at present represented. Application to be made to the Secretary.

All Fire Assurances are now exempt from the payment of Government Duty.

Tables of Rates, Forms of Proposal, and any information needful to effect Life or Fire Assurances may be obtained on application to the Office, No. 92, Cheapside, London, or to any of the Company's Agents.

Founded A.D. 1805.

THE

CALEDONIAN INSURANCE COMPANY.

Incorporated by Royal Charter and Special Act of Parliament.

Life Department.—Although the annual premiums charged by this Company are strictly moderate, the Bonus additions at the 5th Division of Profits recently made, were at the high rate of £1 7s. per cent. per annum on the sum assured.

The Annual Amount of New Life Assurances transacted by the Company has increased since 1872 from £112,913 to £256,250.

The Funds in this Department are kept strictly separate from those of the Fire Department, and are invested for the sole benefit of the Life Policy holders. They are on an unusually ample scale, a large reserve being retained beyond the sum required to meet all Liabilities, according to a net premium valuation by the Carlisle Table at 3 per cent. interest.

Fire Department.—The Reserves in this Department are on such a scale as to afford THE VERY HIGHEST ORDER OF SECURITY to the insured, being equal to about four years' annual income. Nearly every description of property within the United Kingdom is insured by the Company.

REPORT OF THE DIRECTORS, presented at the **53rd** *Annual General Meeting, held at the Society's Office, Friday, November 30th,* 1877.

From the facts which the Directors have now to report, and from the financial details presented in the annexed Schedules*, it will be seen that the experience of the Society during the year ending June 30th, 1877—the first of the new Quinquennial period—has been entirely satisfactory.

The new business, consisting of **544** Policies, assuring **£303,115**, and yielding **£9,691 10s. 6d.** in Annual Premiums, compares favourably, in respect of both numbers and amount, with that transacted in the corresponding years of former periods.

The financial results have been not less favourable. The receipts were larger and the claims by death smaller than in the year preceding. The Income, as shown in the Revenue Account,* reached a total of **£279,925 8s. 3d.**, whilst the outgoings of the year properly chargeable against it have been so moderate in amount as to give a balance of ordinaryreceipt over ordinary expenditure larger than ever before reported. The Surplus Income was, indeed, so large as nearly to cover the whole of the extraordinary payments (**£111,658 12s**) on account of the recent bonus,—payments, it should be remembered, which, being made in redemption of liability, constitute a charge, not on Revenue, but on the Assurance Fund.

To the circumstances attending the division of profits in January last, the Directors may be permitted to invite the renewed attention of Members. The division was preceded by an Investigation, based on the latest results of actuarial science, so searching in character as to require reserves larger by £84,611 than would have been needed by the severest of the methods of valuation previously adopted. A divisible surplus was, nevertheless, shown of **£300,000**,—the largest, both absolutely and relatively, ever declared by the Society. Of the 8,797 Policies which shared in it, the holders of no fewer than 3,990, availing themselves of the facilities for commutation afforded by the Office, accepted money bonuses or abatements of premiums, total or partial, temporary or permanent. A result so conclusive of the strength and resources of the Society, and of the adaptation of its regulations to the needs or preferences of its members, has not only given satisfaction to the Assured, but cannot, the Directors venture to think, fail to secure increased appreciation by the public.

BONUS IN 1882.

The Profits are divided quinquennially, and Policies participate in proportion to the number and amount of Premiums paid on them during the Quinquennium. Persons who effect new Policies **before the end of June next** will therefore be entitled, at the Division in January, 1882, to one year's additional share of Profits over later entrants.

* The Revenue Account and Balance Sheet above referred to, Forms of Proposal, and every information, can be obtained at either of the Society's Offices, or of any of its Agents.

LIFE DEPARTMENT.

The Quinquennial Valuation to Christmas, 1874, was made on the basis of the Institute of Actuaries' (H^M) Table of Mortality and 3 per cent. interest. The Valuation was strictly a net premium one, the whole of the loading being reserved.

The amount of profit divided among 2875 participating policies, assuring £3,002,776, was £128,000, which was equivalent to a return of 29 per cent. of the premiums received during the five years.

The Valuation Report concludes as follows:—

> "The Company's Accumulated Life Reserve Fund is about £21,000 more than is required by a Net Premium Valuation according to the Institute of Actuaries' (H^M) Table of Mortality. This is equalled by very few Offices indeed, and the additional Guarantee afforded by the paid-up capital of £1,000,000 places the Guardian in a position of singular financial strength."

LIFE ASSETS (1876), £1,472,573. LIFE INCOME, £179,000.

RESULT OF BONUS INVESTIGATION, 31st December, 1876.

The Profit is the largest yet divided by the Society.

The Bonus gives an average addition of £84 per £1000 assured.

The basis of valuation maintains, in their utmost force, the safeguards rendering the Society second to none in security to the Assured. Thus—

1. The new "Institute of Actuaries" Tables of Mortality were employed throughout. (These yield higher reserves against Policy-liabilities than any other in recognised use.)
2. The future rate of Interest obtainable was estimated at 3 per cent. only.
3. The whole "Loading" was reserved for future Expenses and Profits. (See Government Schedule.)

The Bonus Report, fully explaining the effect of the principles adopted and the Valuation Schedule, will be forwarded.

The next Bonus Investigation will be made at 31st December, 1881.

Nine-tenths of the Profits belong to the Assured.

The guaranteeing Capital of One Million is held by nearly 300 Members of the Legal Profession. The Policies are "indisputable."

Advances made upon Life Interests or Reversions in sums of not less than £500. Under a *special system* the Reversionary *payments to the Society are reduced to one-half* if falling in within a limited number of years.

LIFE ASSOCIATION OF SCOTLAND.

FOR LIFE ASSURANCE AND ANNUITIES.

LONDON—5, LOMBARD STREET, AND 48, PALL MALL.

Assurers have the choice of two separate Classes of Assurance—distinctive mainly in the systems of allocating the Profits, and which are peculiar to the LIFE ASSOCIATION OF SCOTLAND.

In CLASS A. Third Series, consisting of all policies current from or after 6th April, 1877, the Bonuses from profits are applied every five years in either of two modes, at the choice of the Entrants, namely—

1. *In TOTALLY EXTINGUISHING, after a limited number of payments, the ordinary Premiums stipulated for the Policies; and thereafter in Bonus Additions to the sums Assured; or,*
2. *Altogether in BONUS ADDITIONS to the Sums Assured.*

In CLASS B. the Bonuses are declared every Five Years, and are in the form of Contingent Additions to the Sums Assured. Three divisions of profit have been made, namely, at 5th December, 1865, 1870, and 1875; and at each division there was attached to each Participating Policy a BONUS ADDITION, at the rate of £4 per cent. for every year's Premium paid during the preceding five years—such addition to be payable at death along with the sum assured, provided the life assured attain the average expectation of life of persons of his age when he entered.

Accumulated Fund (1877)	£1,982,004
Policies in force for	9,782,783

Medical Officers—W. Sedgwick Saunders, Esq., M.D., F.S.A. ; William Wadham, Esq., M.D.
Solicitor—William Burchell, Esq. *Actuary*—Henry William Manly, Esq.

FEATURES OF THIS SOCIETY.

1. Being strictly Mutual, **the whole of the assets** belong to the Members, and in order to secure safety and an equitable division of the Profits, the surplus is **annually ascertained,** and a scale of bonuses fixed for Policies becoming Claims in the ensuing year.

2. **Every Policy** upon the Profit-Scale upon which two Annual Premiums have been paid **participates in the total accumulated profits** equally with the oldest policy, in proportion to the number and amount of Premiums paid.

3. A Policy in the Society is **absolutely free and indisputable** after it has been in force five years, and the life assured has attained the age of 30 ; the due payment of the ordinary annual Premium stated in the Policy being then alone necessary to secure to the Member or his representatives the full benefits of the Assurance.

4. On the 31st December, 1876, the Policies in force were 4587, assuring the sum of £2,612,182, the Annual Premiums payable in respect thereof being £80,231 10s. 1d. The Total Income from all sources amounted to £120,147 2s. 5d., and the **Accumulated Fund** to £886,391 6s. 3d. The average rate of interest realised upon its investments is £4 11s. 11d. per cent. The amount of Funds in Hand for every £100 assured was £33 18s., and the total Amount paid on Policies which had become Claims since the commencement of the Society was £1,168,910.

5. The Valuations are based on the Institute of Actuaries' HM (Healthy Males) Table of Mortality, and 4 per cent. interest ; the whole of the "loading" being reserved for future expenses and profits. The stability of the Society is thus amply secured, while provision is made for an equitable distribution of Profits among all the participating Members.

Prospectuses, Forms of Proposal, Board of Trade Returns, and every information may be obtained at the Head Office of the Society, 39, King Street, Cheapside, London, E.C., on personal application or by letter.

All kinds of Life Assurance may be effected. Loans granted on available security.

A husband may effect an Assurance by which the Society will undertake at his death to pay the interest of the sum assured, at the rate of 4 per cent. per annum, to his widow for her life, and at her decease to divide the fund equally among his children, or their representatives, or in whatever way the Policy may set forth. This application of Life Assurance commends itself to persons desirous of making a safe and inexpensive settlement for the benefit of families.

The entire Premiums on a whole Life Policy may be paid yearly by ten equal sums, and if at any time such payments be discontinued, those which have been made will each secure one-tenth of the original amount assured.

THE UNION ASSURANCE SOCIETY has been established upwards of 160 years, during which period it has ever maintained its present high position amongst similar institutions. The total Funds of the Society amount to upwards of **One Million Five Hundred Thousand Pounds**, an amount of accumulated resources which enables the Society to offer to intending Assurers the most perfect security.

FIRE DEPARTMENT.

The Directors are ready to receive proposals for Insuring Property generally at equitable rates against the risk of Fire.

LIFE DEPARTMENT.

Four-fifths or Eighty per cent. of the office Profits are appropriated to the benefit of the assured every five years, the next division taking place in January, 1878. During the last thirty years the **Bonus** has averaged upwards of **One Pound Ten Shillings per cent. per annum** on the sum assured, the effect of which, as applied to particular Policies, will appear from the following Table:—

Age at Entrance.	Sum Assured.	Amount added to Policy after				
		10 Years.	15 Years.	20 Years.	25 Years.	30 Years.
	£	£	£	£	£	£
20	4000	500	900	1240	1540	1840
30	2000	250	450	620	770	920
40	3000	375	675	930	1155	1380
50	1000	125	225	310	385	460

The amount of the Bonus can either be appropriated to increase the sum assured, reduce the annual premium, or its present value can be taken in cash.

Officers in the Royal Navy, or in H.M. Marine Forces, can insure by uniform annual premiums, not subject to increase for residence in any part of the world.

The free limits within which the insured can reside, without extra payment or forfeiture of their Policies, have recently been very considerably extended.

Prospectuses, Forms of Proposal, and copies of the last Annual Report and Accounts of the Society can be obtained on application.

Right Hon. James Stuart Wortley.
Robert Woodhouse, Esq.

The Advantages of this Society are as follows :—

Capital Paid Up	**£30,000**
Amount Accumulated from Premiums	**980,000**
Annual Income	**94,000**
Policies Outstanding and Additions, upwards of ...	**2,200,000**

BONUS.

In every fifth year, **Nine-Tenths of the Profits are Appropriated to the Assured,** and may be taken either *by diminution of Premium*, or *by cash payment proportionate to age*, or *by addition to the amount of the Policy*, at the option of the party.

The Reversionary Bonus declared in 1875, amounting to £155,400, gave an average of 57¾ per cent.; and the Cash Bonus, or present money value, gave an average of 37½ per cent. on the Premium paid in the five years.

The additions to Policies for the last fifty years have been at the rate of nearly 2 per cent. per annum.

The Bonus declared in 1875 amounted to 2 per cent. per annum for the five years. A Bonus of 1¼ per cent. per annum is paid on Policies becoming claims in the interval of each five years.

WESTMINSTER AND GENERAL LIFE ASSURANCE ASSOCIATION,

28, *KING STREET, COVENT GARDEN, LONDON, W.C.*

ESTABLISHED 1836.

Trustees.

ARTHUR T. PRATT BARLOW, Esq. | EDWARD B. HARDISTY, Esq.
ALBERT MOTT, Esq.

Medical Officer.

W. SPENCER WATSON, Esq., M.B., F.R.C.S., 7, Henrietta Street, Cavendish Square, W.

Entire Security is given to the Assured by a Guaranteed Capital of £116,000, and a Fund amounting to £400,000 invested in the Public Stocks, and on Mortgages, &c., being the accumulated Premiums received on Assurances.

The Rates of Premium are moderate and the conditions of Assurance liberal.

Eighty per Cent. of the net profits are divided every five years among the holders of Policies under the participating class of Assurers.

The Profits may either be received in Cash, or a Bonus added to the Policy, or a reduction made in all future Annual Premiums.

At the Eighth Division of Profit declared 20th February, 1877, on the business of the Association for the Five Years ending 31st December, 1876, Reversionary Additions were made to the sums assured of **48** per cent. and under (according to the Age of the Life Assured) on the Premiums paid on the Policies since the Division of 1872.

The Stamp Duty on Life Assurance Policies is paid by the Office.

Immediate, Deferred, and Survivorship Annuities granted upon favourable terms.

Every information on the subject of Life Assurance can be obtained on application at the office, or to any of its Agents. **EDWARD CUTBUSH, Actuary.**

THE CORPORATION OF THE

SCOTTISH PROVIDENT INSTITUTION.

6, ST. ANDREW SQUARE, EDINBURGH. 18, KING WILLIAM STREET, LONDON, E.C.

THIS SOCIETY differs in its principles from any other Office.

INSTEAD of charging rates admittedly higher than are necessary, and afterwards returning the excess, or a portion of it, in the shape of periodical bonuses, it gives from the first as large an Assurance as the Premiums will with safety bear—reserving the Whole Surplus for those who live long enough to secure the Common Fund from loss.

A Policy for £1200 to £1250 may thus in most cases be had for the Premium usually charged for £1000 only; while, by reserving the surplus, large additions may be expected on the Policies of those who live to participate. In a few cases, Policies sharing at the whole four divisions have already been doubled.

ITS TERMS are thus well calculated to meet the requirements of intending Assurers They are specially adapted to the case of *Provisions in Family Settlements*, where it is of importance to secure, for the smallest present outlay, a competent provision, of definite amount and without sacrifice of profits, in the case of early death.

EXAMPLES OF ANNUAL PREMIUMS FOR £100 AT DEATH (WITH PROFITS).

Age.	25	30	35	40	45	50
	£	£	£	£	£	£
Payable *during Life* ...	1 18 0	2 1 6*	2 6 10	2 14 9	3 5 9	4 1 7
Limited *to* 21 *Payments* ...	2 12 6	2 15 4	3 0 2	3 7 5	3 17 6	4 12 1

* A Person of 30 may thus secure £1000 at Death, by a yearly payment, DURING LIFE, of £20 15s., or by TWENTY-ONE yearly payments of £27 13s. 4d.—being thus free of payment after age 50.

At age 40 the Premium CEASING AT AGE 60, is, for £1000, £33 14s. 2d., being about the same as most Offices require to be paid during the whole term of life.

The NEW ASSURANCES (entirely Home Business) in each of the last three years exceeded ONE MILLION STERLING.

The COST OF MANAGEMENT is unusually low. Notwithstanding the large amount of NEW BUSINESS—in special connexion with which so much of the outlay is necessarily incurred—the *Ratio* of Expenses in last year was only 7·96 per cent on the Receipts, or 10·93 per cent on the Premium Income. *The actual Expenses are greatly under those of any other Institution doing a like amount of New Business.*

The ACCUMULATED FUNDS (increased last year by £227,000) now exceed THREE MILLIONS STERLING.

The GROWTH OF THE FUNDS must after all be the best practical test of prosperity. "*The* RATIO *in which, for several years past, our Funds have increased, in proportion to our Income, has greatly exceeded that of any other Office in the kingdom.*"

Full STATEMENTS *of* PRINCIPLES *will be found in the* ANNUAL REPORTS.

Assistant-Surgeon—Montgomery A. Ward, M.B., M.Ch., F.R.C.S.I., Lecturer on and Demonstrator of Anatomy, Ledwich School of Medicine, Ex-Medical Scholar, T.C.D.

The central position of this Hospital renders it particularly convenient to gentlemen attending Lectures at the University, College of Surgeons, or Ledwich School. The arrangements for Clinical Teaching have been made as complete as possible, and are such as not to interfere with attendance at the Medical Schools. There are Fever Wards, and Two Wards for Infants and Children. Special hours are devoted to Clinical Instruction in the Diseases peculiar to Women, the Diseases of the Eye, and Cutaneous Diseases, and Students are individually instructed in the use of the Stethoscope, Ophthalmoscope, Laryngoscope, and Microscope. Two Resident Pupils are selected half-yearly. Prize Examinations are held at the termination of the Session.

Further particulars can be obtained from Mr. RICHARDSON, 22, Ely Place, or any other Member of the Medical Staff.

KING AND QUEEN'S COLLEGE OF PHYSICIANS IN IRELAND.

STATED CLASS EXAMINATIONS

For the Licence in Medicine are held on the *second* Tuesday and Wednesday, and that in Midwifery on the following day, in each month, excepting August and September. Gentlemen wishing to present themselves should make application a fortnight previously.

The Examination for the Licence in Medicine is divided into two parts. The subjects of the first Examination are—Anatomy, Physiology, Chemistry, and Botany. The subjects of the Second or final Examination are—Medicine, Medical Jurisprudence, Midwifery, and Materia Medica.

At the *final* Examination for the Licence in Medicine of the College, Candidates will be examined as follows:—1. At the bedside; 2. by printed questions; 3, by oral questions.

Candidates qualified as follows are required to undergo the *second* or final part of the Professional Examination only, viz:—

1. Graduates in Medicine of a University in the United Kingdom, or of any foreign University approved by the College.
2. Fellows, Members, or Licentiates of the Royal Colleges of Physicians of London or Edinburgh, who have been admitted on examination.
3. Graduates or Licentiates in Surgery.
4. Candidates who, having completed the Curriculum required by the College, have passed the Previous Examination of any of the Licensing Corporations in the United Kingdom.

Candidates who are Physicians or Surgeons of five years' standing are further exempted from the Clinical and Written Portions of the final Examination.

The Election for Fellowship takes place twice a year, on the first Friday in April, and on St. Luke's Day.

Examination of Women for the Licence to practise as Midwives and Nurse Tenders are held as occasion requires.

Further particulars can be obtained by application to—

THE ROYAL MEDICAL BENEVOLENT COLLEGE

Was founded in order to provide an ASYLUM and PENSIONS for duly qualified Medical Men, and the Widows of such, in reduced circumstances; and a SCHOOL for the sons of duly qualified Medical Men.

THE ASYLUM contains twenty-four residents, who are called Pensioners, each of whom is provided with three furnished rooms, and receives a pension of £21 a year, and an annual allowance of 3½ tons coals. In addition to the resident Pensioners, there are twenty-six Pensioners who have Annuities of £21, without residences.

PENSIONERS must be legally qualified Medical Men, who have been in independent practice in England or Wales for five years from the date of their diploma, licence, or degree, or the Widows of such. They must not be less than sixty years of age, at the time of their application for admission as Candidates, and their yearly income must not exceed £60. They will be elected in the first instance to Annuities only, and will succeed to residences in turn, as vacancies arise among the residents, provided that their circumstances are such as to render them fitting inmates of the Asylum.

THE SCHOOL contains two hundred resident pupils, the sons of Medical Men, fifty of whom, being the Foundation Scholars, are educated, boarded, clothed, and maintained, at the expense of the Institution; while the remainder are charged £48 a year each, if under 14 years of age, and £51 a year, if 14 years of age and upwards, for an education of the highest class, board, washing, use of books, &c. There are also Day Scholars, who are not necessarily the sons of Medical Men.

FOUNDATION SCHOLARS must be elected from among the necessitous orphans and sons of such Medical Men as would be professionally qualified for Pensionerships. They must be fully eight years old when proposed as candidates.

There is a CHAPEL for Divine Worship according to the ritual of the Church of England.

Donors of TEN GUINEAS are Life Governors of the College; Subscribers of ONE GUINEA annually are Governors during the continuance of their Subscriptions. All Subscriptions are due in advance on the 1st of January in each year.

The Governors vote at all elections by ballot, either personally or by proxy, and have votes in the proportion of one for each GUINEA subscribed annually, for every TEN GUINEAS given, for every TWENTY GUINEAS collected.

Any information with regard to the details of the Institution will gladly be communicated to parties addressing inquiries to the SECRETARY, at the Office of the College, 37, Soho SQUARE, where Subscriptions and Donations will be thankfully received. Subscriptions will also be received by the TREASURER, the MEMBERS OF THE COUNCIL, the HONORARY LOCAL SECRETARIES, and the BANKERS, Messrs. Goslings and Sharpe, 19, Fleet-street. Post Office Orders should be drawn on the Chief Office, "London, E.C.," and should be made payable to "Robert Freeman."

The Office is open daily from Ten to Five, except on Saturdays, when it closes at Two o'Clock.

ASHWOOD HOUSE,

KINGSWINFORD, STAFFORDSHIRE.

A Private Asylum for Ladies and Gentlemen.

GEORGE FOWLER BODINGTON, M.D., M.R.C.P., F.R.C.S. (Exam.)

Proprietor and Medical Superintendent.

Ashwood House is a large mansion in the county of Stafford, close upon the borders of Worcestershire. It is very substantially built, and is situated upon an elevated spot commanding extensive views. The rooms are large, lofty, and cheerful, and the house, both inside and outside, has entirely the air and character of a gentleman's private residence. The soil is sand and gravel, has excellent natural drainage, and is very dry. The gardens and grounds, about forty acres in extent, are well planted with shrubs and ornamental timber, and are extremely picturesque. The climate is genial, and the locality notoriously healthy. The country around is secluded and quiet, and affords a great variety of walks and drives amidst the most charming scenery.

The patients associate with the Proprietor's family, and have every possible freedom allowed them consistent with safety.

Carriage exercise is provided; there is a Billiard Room, and a large Croquet Lawn; Books, Newspapers, and Magazines are supplied, and the patients are entertained with music and a variety of other means of recreation and amusement.

Divine service is held in the House every Sunday afternoon.

This establishment has lately been removed from Driffold House, Sutton Coldfield, Warwickshire, where it was carried on for thirty-six years by Dr. Bodington and his father. The following extract is from the Report of the Lunacy Commissioners [July, 1872]:—

"Driffold House, Sutton Coldfield, near Birmingham, is now very judiciously managed, and uniformly satisfactory account has been given lately of the accommodation and the treatment of its patients of both sexes . . . . all of them receiving much attention and kindness from Dr. Bodington's family."—*26th Annual Report of the Commissioners in Lunacy*, p. 44.

Stourbridge and Dudley are the nearest railway stations. Postal Address—

DINSDALE PARK, NEAR DARLINGTON.

As a residence for Mental Invalids, Dinsdale Park Retreat was successfully carried on for fourteen years by Dr. MACKINTOSH, and in 1869 Dr. EASTWOOD succeeded him in the charge of the establishment. The house has always maintained a high character, and is eminently well adapted for patients of the higher and middle classes. Its southern aspect and elevated situation on the Durham side of the River Tees, overlooking a large portion of the North Riding of Yorkshire and the varied scenery of the Cleveland Hills, render it at once a healthy and cheerful residence. Attached to the mansion are more than one hundred acres of land, of which a considerable portion is laid out in gardens and pleasure-grounds. The neighbourhood has become proverbial for its beauty and salubrity. The house is well arranged for both ladies and gentlemen, and is peculiarly adapted to the requirements of invalids of the highest classes, having suites of apartments for special use if desired.

Carriage exercise, Archery, Bowls, Croquet, Billiards, Bagatelle, Daily and other Newspapers, Periodicals, Books, and Musical Instruments are provided, whilst amusement and occupation are obtained on the farm and in the gardens.

Dr. EASTWOOD has had great experience in the treatment of mental disorders and in the care of the insane. Dr. and Mrs. EASTWOOD endeavour to promote, in every possible way, the early recovery of the patients, and to give them a comfortable and cheerful home.

For forms of admission and for further particulars, application may be made to Dr. EASTWOOD, Dinsdale Park, Darlington.

The Parliamentary Gazetteer of 1843 *has the following Description by* SIR GEORGE HEAD :—

"The house is a spacious, well-built mansion, lately erected by the EARL of DURHAM, embellished with lawn and pleasure-grounds, situated on an eminence commanding a magnificent view over the broad vale of Cleveland as a foreground, and in the distance bounded by the Yorkshire mountains. Immediately below, the River Tees, almost equal in beauty to the Thames at Richmond, forms an ample and graceful bend; and on its hither bank plantations afford a retired and shaded walk nearly two miles in extent. The walks through the fields and woods in the neighbourhood of Dinsdale are as beautiful as can be imagined, combining a splendid distant prospect with a home picture of rural retirement."

HOUSE OF RECOVERY AND RETREAT FOR THE INSANE.

Established 1824, for the reception of both Ladies and Gentlemen.

POST TOWN—LOUGHGALL, Co. ARMAGH.

I take the liberty of informing the Medical Profession and friends of the Mentally Afflicted, that I have recently remodelled and considerably enlarged the above Institution, all the arrangements being in accordance with the improved system which modern science has introduced into the treatment of the insane.

This Institution is situate in a very beautiful and picturesque neighbourhood, which combines cheerfulness with retirement, and it has long been admitted to be a most healthy residence. The grounds are extensive, and laid out with much taste, and the private walks run through a mile of rich and varied scenery.

The greatest care is always taken to render this Establishment a domestic home and house of recovery, rather than an asylum in the general acceptation of the term, and the closest attention is paid to the medical treatment and general health of the Patients; every facility being provided for their recreation and amusement.

TWICKENHAM HOUSE,

MIDDLESEX.

Licensed to Dr. Hugh W. Diamond, *formerly Medical Superintendent of the Surrey County Asylum, and* Miss Theresa Diamond,

FOR THE RECEPTION OF LADIES MENTALLY AFFECTED.

PARLIAMENTARY REPORT.

House of Commons, 11*th April*, 1859.

The House is a large old mansion, with extensive Stables and other detached out-buildings, including a Washhouse and Laundry.

The Land attached, comprising upwards of five acres, and consisting of lawn and pleasure-grounds, gardens and pasture, is well suited for out-door exercise.

A considerable portion adjoining the House is agreeably laid out, and well planted with very fine timber.

Report from Dr. Diamond *to the Committee of Visiting Magistrates of the Surrey County Asylum, December* 13, 1856.

"In the year 1848, there were 59 Female Patients, out of 238 then in the Asylum, who had been restrained or secluded for a period of 16·097 hours,—7 being discharged cured; but the year 1852 so changed the system, that only 2 female patients were secluded out of 488, and that for a period of 19 hours, and you had the pleasing office to discharge well no less than 112. Thus proving that during the time I have had the honour of being entrusted by you with the care of the female patients, restraint has been actually abolished, and the favourable results have more than doubled in ratio those of my predecessors."

In separate residences adjoining the grounds of Twickenham House there is accommodation for Private Patients.

Twickenham House is ten minutes' walk from the Twickenham Station of the South-Western Railway, and easily accessible from the West of London by the Metropolitan District and other Railways.

WYE HOUSE ASYLUM, BUXTON,

DERBYSHIRE.

AN ESTABLISHMENT FOR THE CARE AND TREATMENT OF THE INSANE OF THE HIGHER AND MIDDLE CLASSES.

Resident Physician and Proprietor—Dr. F. K. Dickson, F.R.C.P. Edin.

Erected in 1861 by HIS GRACE THE DUKE OF DEVONSHIRE.

This Institution has been established for the reception of Patients of **BOTH SEXES** of the Higher and Middle Classes, for whom it is admirably adapted by its position and appointments.

It is erected on an eminence surrounded with scenery of the most varied character, and the views from the House and Terraces extend over many miles of picturesque country.

The House is furnished throughout on the most liberal scale, and fitted up and arranged to resemble as much as possible that of an ordinary dwelling-house, with Bath-rooms and every necessary convenience.

The Proprietor lives in the House, and is assisted in his duties by a resident House Surgeon and an experienced Lady Superintendent.

Every exertion is made to promote health and comfort, both by moderate bodily employment and by variety in amusements, such as reading, music, drawing, excursions, fishing, billiards, croquet, lawn tennis, badminton, theatricals, reunions, &c. A Library is provided, containing works of an instructive and amusing character, suited to the condition of the Patients. Also Periodicals, Magazines, and Newspapers.

Due provision is made for the spiritual welfare and consolation of the Patients, and Divine Service is held every Sunday in the Chapel attached to the Institution.

The Pleasure Grounds, which are very spacious, have been laid out in the most tasteful manner, especially for the recreation of the Patients; and contain Conservatories, Lawns for Croquet, Badminton, Lawn Tennis, and other out-door games, also a Theatre, Billiard-room, American Bowling Alley and Workshop for the in-door occupation of the Patients.

The House is heated throughout by means of hot-water apparatus, and is well and thoroughly ventilated.

Buxton is situated on the Mountain Limestone Formation, at an elevation of 1000 feet above the level of the sea, and is accessible by railway from Manchester and Liverpool by Stockport, or by the Great Northern and Midland Railways *vid* Ambergate and Derby. It is also connected by Telegraph with all parts of the kingdom.

Particulars of Terms and Forms of Admission can be obtained on application to the Resident Physician.

BRAVAIS' DIALYSED IRON.

THE ONLY PURE NEUTRAL SOLUTION OF IRON WITHOUT ACID.

Lancet, June 9th, 1877.—"Colloid hydrate in aqueous solution. *Such a solution, neutral, tasteless*, and containing but little chloride, *is now before us.* ('Bravais' Dialysed Iron.') It is a beautiful and interesting preparation."

British Medical Journal, March 3rd, 1877.—It has all the good effects of iron without producing constipation or disturbing the digestion. It does not blacken the teeth. An eminent London physician writes to us: *'I have tried it extensively and given it in cases in which no other form of iron could be taken. It is the best preparation of iron I have met with.'"*

Medical Times, July 7th, 1877.—"It has no styptic taste, does not stain the teeth, and does not cause constipation, and may be taken pure, dropped on a lump of sugar, or stirred in a glass of wine."

Medical Press and Circular, March 21st, 1877.—"This preparation is the nearest approach to the form of iron contained in the blood, and as it has no irritant properties, it will doubtless prove to be most valuable of all the forms in which iron can be administered. We have already given it an extensive trial."

London Medical Record, March 15th, 1877.—"Bravais' Dialysed Iron is tasteless, free from styptic character, and the acid is wholly removed by dialysis. It is a most energetic preparation, yet it is in a state in which it does not blacken the teeth. It is, in fact, the *beau ideal* of a ferruginous tonic, and we regard it as a therapeutic of great value."

Prepared solely by—

TASTELESS PILLS.—COX'S PATENT.

Dated and sealed April 13, 1854.—Surgeons and Chemists supplied with an excellent Aperient Pill (the formula for which will be forwarded), covered with a thin non-metallic film, rendering each pill perfectly tasteless, at 1s. 0d. a gross. Postage free. They present an elegant pearl-like appearance, and may be kept in the mouth several minutes without taste, yet readily dissolving even in cold water, in an hour. Any formula dispensed and covered, and samples, with a list of pills from 500 different forms, which are kept in stock, will be forwarded free on application.

Twenty years' success, as proved by unsolicited testimonials from medical men in almost every town and village in the kingdom, has produced imitations likely to bring an useful invention into disrepute.

QUINQUININE (about one-third the present cost of Quinine).

A New and Improved Preparation of the Officinal Cinchona Bark, Equal to and in many respects Superior to the Sulphate of Quinine; very generally used and much approved by the Medical Profession.

PROPERTIES, &c.—In appearance this preparation resembles the Sulphate of Quinine, and possesses many of its general characteristics.

It dissolves readily in Dilute Acids, forming a clear solution, and is compatible wherever Quinine would be employed.

It contains the entire active principles of the Bark, and possesses important advantages over Quinine, Quinidin, Cinchonine, &c., and from its being much less costly than Quinine, it has been very much used in hospital and private practice during the last eight years.

AËRATED MINERAL ACID WATER, LITHIA WATER

OF THE BRITISH PHARMACOPŒIA, AND OTHER AËRATED WATERS,

PREPARED BY BLAKE, SANDFORD, & BLAKE.

Pharmaceutical Chemists, 47, Piccadilly,

The Original Makers of Potash Water, Lithia Water, and Mineral Acid Water.

Extract from *British Medical Journal*, Oct. 31st, 1868.

"Blake's Soda Water has been repeatedly examined. Each of four bottles obtained from the maker has been found to be accurately of the Pharmacopœia strength."

Pure Water highly impregnated with Carbonic Acid.

Soda Water, containing 15 grains in each bottle.

Potash, 15 grains (Bicarbonate). Citrate of Potash, 30 grains.

Lithia, 2 grains, and 5 grains, either by itself or in combination with Bicarbonate of Potash or Phosphate of Ammonia.

Ammonia, 10 grains (Carbonate). Seltzer and Vichy Waters.

Aërated Mineral Acid Water (containing Nitro-Muriatic Acid), more refreshing than any effervescing beverage hitherto prepared. It is made also with Nitric, Phosphoric, Sulphuric, or Lactic Acid.

CITRATE OF LITHIA.

To meet the increasing employment of Lithia in the treatment of Gout, Gravel, &c., Messrs. BLAKE, SANDFORD, and BLAKE prepared a Citrate of the Alkali, which has been since introduced into the British Pharmacopœia; the Carbonate being very insoluble is difficult of administration, except in the form of an Aërated water. This Salt is extremely soluble, nearly tasteless, and easy of decomposition in the system. Dose from 5 grains upwards.

GUAIACATE OF LITHIA.

The value of the combination of Lithia with Guaiacum will at once present itself to the profession. This is usually administered in the form of pills, the ordinary dose being from 2 to 5 grains.

LIQUOR BISMUTHI
(SCHACHT).

Carefully Purified from Arsenic and other Contaminations.

DOSE.—One drachm diluted: equivalent to a full dose of the Trisnitrate.

INVENTED & INTRODUCED TO THE PROFESSION BY MR. C. F. SCHACHT IN 1855.

Dr. S. MARTYN, late Senior Physician to the Bristol General Hospital, says—

"For several years past, in prescribing Bismuth, I have used almost exclusively a solution made by Mr. SCHACHT, of Clifton. It is an oxide, in combination with ammonia and citric acid, and from which Mr. SCHACHT has gone to the expense of removing the *arsenic, copper, silver, &c.*, commonly present in preparations of *BISMUTH*. In acute irritability of the stomach, without much acidity or vomiting, and especially in that which remains after ulceration, it allays the pain. In hospital practice I have observed remarkable ease produced by this solution, when given quite alone—*i.e.*, simply diluted with water; while it was always much more satisfactory to me to use a fluid of agreeable taste than a cumbrous powder of not very certain composition."

Mr. CHARLES EKIN, F.C.S., writing of the general prevalence of Silver and other Contaminations in commercial samples of Liquor Bismuthi, says—

"It must be confessed that the Bismuth preparations of the Pharmacopœia, as at present met with in commerce, are far from satisfactory. It is only just, however, to Mr. SCHACHT, of Clifton, the inventor of the fluid preparation, to say that the *Liquor as prepared by him* is invariably free, not only from silver, but also from copper, antimony, and arsenic; and that in HIS prescribers have, at all events, ONE preparation that they may at all times depend upon."

The value of these opinions has been generally admitted by the Profession during an experience of over twenty years. The Inventor therefore hopes, both for the security of the Patient and the satisfaction of the Prescriber, his Professional Friends will be careful to write—

LIQUOR BISMUTHI **(SCHACHT).**

SYRUPUS CINCHONÆ ALCOHOLICUS
(SCHACHT).

DOSE.—15 drops to a teaspoonful.

One drachm contains the entire medicinal properties of 20 grains of the Finest Peruvian Bark.

The object here attempted is to offer to the Medical Profession a Preparation containing all the active constituents of the Finest Cinchona Barks, and which shall practically be *BARK MINUS THE WOODY FIBRE.*

The success it has already met with shows that it fulfils a want long felt; and Prescribers may at all times depend upon the Preparation being exactly what it professes to be.

The "ALCOHOLIC SYRUP OF BARK," as its name implies, is made by completely exhausting the Bark with Alcohol, and combining the result in the form of a Syrup.

The above Preparations are manufactured personally by Mr. SCHACHT, *in the Laboratory of*

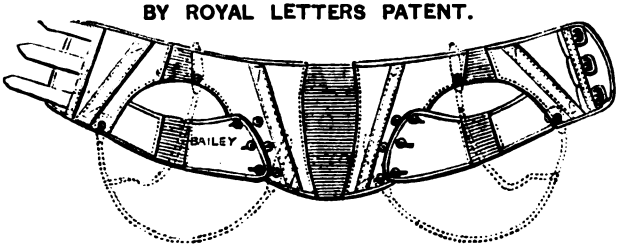
BAILEY'S PATENT ABDOMINAL BELTS.

BY ROYAL LETTERS PATENT.

ACKNOWLEDGED TO BE THE GREATEST IMPROVEMENT



IN THESE APPLIANCES. EVER EFFECTED

Extract from **"The Lancet,"** April 7th, 1877.

"NEW INVENTION.—BAILEY'S PATENT ABDOMINAL BELTS.—Messrs. BAILEY have introduced an Abdominal Belt possessing many advantages, which prevent it 'rucking' or creasing. The belt will be found an easy and comfortable Abdominal Supporter.

"Messrs. BAILEY also make a *Gentleman's Riding Belt* on the same principle, the utility of which to any horseman with a weak spot in the Abdominal Parietes must be obvious."

Extract from a Letter received from **Dr. Heywood Smith,** *Physician to the Hospital for Women, Soho Square, and to the British Lying-in Hospital.*

"It gives very great support, and fully carries out the object for which it was designed—viz., that it can be worn in comfort without riding up."

Extract from **"The British Medical Journal,"** July 7th, 1877.

"Messrs. W. H. BAILEY & SON, 16, Oxford Street, have introduced an excellent Abdominal Belt, which has many advantages, and is ingeniously constructed, and so arranged as to avoid creasing, rucking, and riding up. The hips are left free, and thus it can be worn with much ease and comfort."

Extract from **"The Medical Times and Gazette,"** June 30th, 1877.

"We have received from Messrs. BAILEY, of Oxford Street, a new Abdominal Belt for Women, which appears to us to possess some very decided advantages. It is well known that the great and common defect in most, if not all, the supports of this kind is the difficulty of keeping them in place, of preventing their 'rucking up.' In their new belt Messrs. BAILEY have provided orifices through which the hip-bones project, and thus the upper part of the belt is supported and kept in position, while the combination-straps, passing underneath, and connecting the back and front, secure the lower part. Rucking or riding up is thus prevented to a degree that we have not found approached in any other form of belt we are acquainted with. The belt is well made, gives great support, and is easy and comfortable."

PRICES—LADIES' BELTS: Best Quality, with Silk Elastic, 45s. each; Ditto, ditto, Cotton Elastic, 35s. each; Second Quality, with Cotton Elastic, 25s. each. RIDING BELTS: Best Quality, with Silk Elastic, 25s. each; Ditto, ditto, Cotton Elastic, 21s. each.

COPY OF A PROFESSIONAL OPINION.

"We, the undersigned Physicians, consider it to be desirable for the guidance of the public that a professional opinion should be again pronounced upon the Climatic Instruments invented and introduced by Mr. Jeffreys. We fully concur in the opinion that they have more than realised in their effects the benefits anticipated from them. We therefore commend them to the attention of all persons who need the climatic protection they are qualified to confer, and whom we feel it to be our duty to caution against trusting their vital organs to any articles of a false or inferior construction."

MEMORANDUM.

LINT.—Our No. 3.0.0.0., 0., and 1, Surgeon's Cotton Lints, being now used in *ALL THE LARGEST BRITISH HOSPITALS*, we can with confidence recommend them to the Faculty, and to the Managers of Foreign Hospitals.

N.B.—Our No. 4 *Surgeon's Lint is the Finest Lint* made by Machinery.

ROLL BANDAGES.—R. & S. beg to call the attention of the Profession to their make of Roll Bandages, which are made from cloth manufactured by them specially for the purpose. The advantages over ordinary calico are, that they are softer, more elastic, and have a better grip on the limb, whilst they are found to bed remarkably well on round surfaces. TWO QUALITIES MADE, GREY AND WHITE.

COTTON WOOLS BLEACHED AND CARDED SPECIALLY FOR SURGEONS' USE.

ESTABLISHED 1835.

BRAND & CO.'S SPECIALTIES FOR INVALIDS.

CONCENTRATED BEEF TEA.

This article contains all the soluble ingredients of the best beef, and may be taken by the most delicate stomach with perfect safety. BRAND & Co. have the honour to state that, for many years past, the most eminent of the Medical Profession have constantly prescribed their BEEF-TEA and other preparations as peculiarly adapted for Invalids. It will keep in any climate.

DIRECTIONS FOR USE.—Cut in small pieces an ounce (more or less, as circumstances require), and dissolve in half a pint of boiling water; re-boiling adds to the flavour.

THE CONCENTRATED CHICKEN and MUTTON BROTHS are also offered by BRAND & Co. with perfect confidence, resting on the favourable results which have attended the use of them in very critical cases.

ESSENCE OF BEEF.

"BRAND'S Essence of Beef can hardly be called a new invention, seeing that it has now been in use for a number of years, but only in the hands of a select few. Like many other things, it had a small beginning, but now that the proprietors have entered on its manufacture on a large scale, and are prepared to supply it in almost any quantity, we feel it our duty to make the existence of such an admirable preparation more widely known. This we do all the more readily from a knowledge that the preparation is not so extensively used as it deserves to be, from the sole reason that its value is not so generally appreciated as it might be, even if its existence is known and recognised. Moreover, having recently had to employ it on a larger scale and over a longer period than usual, we are the more vividly impressed with its rare merits. This Essence of Beef consists of the juice of the meat, extracted solely by heat, without the addition of water or any other element. In the tin it ordinarily assumes the consistence of a thin jelly, and is best exhibited cold, a teaspoonful being given at a time. Used in this way, a patient may be supported and actually gain strength with no other aliment whatever, and that, too, when the digestive and bodily powers are at the lowest possible ebb. This is no mere matter of theory or *à priori* reasoning, but a matter of unimpeachable experience; and on that ground alone we take leave most earnestly to commend it to our professional brethren."—*Medical Times and Gazette*, page 704, June 27, 1874.

BEEF TEA JELLY.

This article is Pure Beef Tea, of about three times the usual strength, and will be found very beneficial to Invalids.

FIBROUS EXTRACT OF MEAT.

This extract contains in a concentrated form all the *nutritious* elements of the meat, differing from other preparations in retaining most of the fibrine and a percentage of fat. It will be found both palatable and nutritious, its flavour being almost identical with that of the meat.

TURTLE JELLY, CALF'S-FOOT JELLY

Are recommended by B. and Co. as suitable for invalids. The former is made from the pure calipash of the Turtle.

TURTLE SOUP,

Prepared by BRAND & Co. "Expressly for Invalids," will be found very delicate in flavour and highly nutritive.

SAVOURY MEAT LOZENGES.—Travellers and others will find in these lozenges substantial support in a very simple and convenient form.

CAUTION.—Beware of Imitations. Each genuine article is labelled with the Firm's Signature and Address, thus—

HYPNOPHORA,

Sketch showing the Hypnophora when used as an ordinary Bed.

MR. NEWHAM'S HYPNOPHORA,

PATENT INVALID BED.

THIS Bed is constructed with a view of assisting and giving comfort to paralytic and otherwise helpless invalids.

No matter what his weight, or the nature of his infirmity, the patient can easily be placed upon this Commode by a single nurse.

MODE OF ACTION.—The patient lying on his back, the nurse, by turning a crank on the lower part of the bed, can open a space into which the clothes can be pressed to make room for the Commode, the edge of which is covered by an inflated cushion.

By turning a crank on the upper part of the bed, the patient, owing to the peculiar construction of the mattress, can not only be elevated into a sitting position, but be gently glided forward on to the Commode.

By reversing the crank action, thus lowering the head of the bed, the weight of the patient is transferred again to the upper part of the bed, the Commode can be removed, and the space reclosed.

The Hypnophora Patent Invalid Bed is soft and luxurious, and in outward appearance does not differ from an ordinary bed. It can be constructed in Brass, Iron, or Wood. The mechanism by which it is worked is entirely hidden, and is of so simple and solid a character that it cannot possibly get out of order.

VENTILATION.—The mattress of hair or wool, upon open springs, insures an amount of comfort with a constant current of air, a very needful advantage in confinements, the sweats of consumption, fevers, &c.

PILLOWS are specially designed to give support and comfort to patients whilst in a sitting posture. The advantage of this arrangement is obvious in heart disease, dropsy, &c.

BANDS.—To lift the clothes off the feet in gout, rheumatism, injuries, &c.

WINGS.—Movable at pleasure, to keep the pillows from falling out of bed.

PAN.—Is arranged under the bed for disinfectants.

In case of Insane Patients a waterproof sheet may be connected with this pan by means of a tube.

These Bedsteads, with Apparatus, Spring Mattress, Mattress, Pillows, and Commode complete, can be seen at the Temporary Offices,

JAMES ALLEN & SON'S

Portable Turkish

HOT-AIR & VAPOUR BATH.

The following are the principal merits and characteristics of our Apparatus :—

1. Will give a Bath of Hot-air only.

2. Will give a Bath of Vapour only.

3. Will give a Bath of Hot-air and Vapour combined.

4. Will give a Medicated Bath of Camomile Flowers, Poppy-Heads, &c. Herb box or receiver supplied with each boiler.

5. Will give a Mercurial Bath, by simply removing boiler, and using vaporiser, supplied specially for that purpose, at the small additional cost of 2s. 6d., if boiler not required no extra charge.

6. It can be applied to the bed, used under a chair, or any local application required. The lamp having three burners it can be modified to any requirement, and used for children or adults.

7. For a Portable Bath, thoroughly efficient—bath of Hot-air and Vapour under a chair (as Fig. 2), three burners lighted, blanket well thrown over the whole, at the end of fifteen minutes the Thermometer registered 140 degrees; removed boiler, Hot-air only, ten minutes later Thermometer registered 160 degrees.

8. It is *perfectly safe*. Lamp Baths have been brought into bad repute from accidents that have taken place in their use. Either in the construction of lamp or from overfilling, the spirit has percolated out at burner, and catching light sets fire to carpet or surroundings. To prevent this we provide a measure which only half fills the lamp; we also in case by accident the lamp should get filled, provide a water-channel round each lamp to be filled with cold water to keep spirit in lamp cool, or if by chance the spirit should ooze out and catch alight, the water would prevent it spreading.

9. *It is a Portable Bath.* With all appliances will pack in box less than 12 inches square, and weighs only 11 lbs.

10. Its price, £1 10s., places it within the reach of all. While elegant in appearance it is thoroughly durable, every part that can be affected by heat either seamed or rivetted together.

Meeting all these requirements, it may be truly called "THE DOMESTIC BATH," and should find a place in every household.

Light one burner, and you have a good Bed-warmer or Airer, for Home or Hospital use.

SANITARY RECORD, July 27, 1877.—"Will be found a luxury, as well as a valuable remedial resource."

LONDON MEDICAL RECORD, August 15, 1877.—"The Turkish Hot-air and Vapour Bath, introduced into use by Messrs. Allen, is really invaluable for safety, convenience, and simplicity."

MEDICAL TIMES AND GAZETTE, Sept. 29, 1877.—"Deserves to be much more widely known and used than it seems to be at present."

MEDICAL EXAMINER, Oct. 11, 1877.—"It is not, perhaps, going too far to say that such a contrivance as Allen and Son's Portable Turkish Bath should find a place in every well-regulated household."

BRITISH MEDICAL JOURNAL, Dec. 8, 1877.—"Possesses in an eminent degree the very desirable qualities of efficiency, portability, and cheapness, thus meeting every requirement."
